Mike S. Smelley  
2889 Mack Smelley Dr.  
Longview TX. 75605

This is a bid to fix a wash in the north east corner of the baseball field complex.

Scope of work:

Mobilization in and out.

Clean up old concrete and take out existing plastic culverts to reuse.

Install and reattach to the existing pipe and I have half of the distance in new pipe due to some of it being torn up.

Import approximately 1,500 cubic yards of clay to fill up the ditch and shape into a new ditch.

Lay geo fabric on top of clay to prepare for the oversized rock.

Install 8 by 12 inch rip rap rock to protect the new ditch and disperse the water.

Plant grass on existing topsoil areas and install curlex Matt on top to hold down the erosion.

Total bid \$75,000
