TO: Dr. Susan Jackson
FROM: Ms. Leia Miller
SUBJECT: CTE Recognition of Port Houston Donation to Maritime Program

The Career and Technical Education (CTE) Department is pleased to recognize Port Houston for their generous donation of \$7,500 to the maritime program at Robert E. Lee High School. This significant contribution will directly enhance our students' educational experiences by providing them with the tools and resources necessary to succeed in the maritime industry.

The Port Houston Maritime Education Sponsorship Program is an initiative designed to:

- Introduce youth to career opportunities in port-related industries
- Encourage higher education in the maritime field
- Develop partnerships between port employers and educational institutions, ensuring access to relevant education programs that cultivate tomorrow's maritime workforce

We are grateful for Port Houston's continued dedication to our students and for supporting initiatives that strengthen the connection between industry and education.
