**Re:** District Calendar Change

---

The district sit-based decision making committee met on November 2, 2011 to discuss a proposed change to the district secondary school calendar.

S&S High School is hosting the district 11-AA academic contest on Friday March 23, 2012. In order to host this contest and make the most efficient use of the high school facilities the committee voted to approve the application for an attendance waiver day from TEA.

If the Board of Trustees approves this proposed change, it would apply to the high school students only. Middle school and elementary school students would attend classes as a regular school day.
