The class of 2025 is asking if the district could cover the cost of two type three vehicles for transportation as we are covering every other cost.

Dear School Board Members,

This is the Class of 2025. We are reaching out to you, because we would like to take our class trip in October. We would really like to go to ValleyScare which runs from September 26th - October 26th. With them only being open Fridays and Saturdays. Due to sports schedules for football and volleyball, we are asking that you would consider a Saturday - Sunday trip. We are hoping to leave October 12th because there is a football game Friday October 11th. We are also asking if the district could please cover the cost of two type three vehicles for our transportation. The class is covering all other costs. We have included an itinerary for your review.

We understand this is short notice, however we are really looking forward to spending time together. If someone could please let us know their thoughts as soon as possible, that way we are able to start ordering tickets and booking hotels. We also think this would be better for everyone to go earlier in the school year because spring sports and graduation gets to be a busy time of year. Please reach out if you have any questions or concerns. We are still planning on attending the next school board meeting too.

Thank you all for your time!
