

Administrator Evaluation

Jack Dillard

February 10, 2014

I have not been able to find an evaluation form for Ag. Science and Technology Director. I will develop an evaluation form locally. I did have a summative evaluation conference with Jack Dillard. We discussed his responsibilities as Director of the Ag. Science and Technology Department. His department will become much more important to our high school students with the new HB 5 legislation. The current enrollment of the Ag. Science and Technology Department is 260 students. This current enrollment consists of middle school and high school students. Jack Dillard is currently on a two year 12 month term contract. I am rating his performance as exceeds in most of the categories that we discussed. I recommend extending his contract for one year which will make his new contract extend through June 30, 2016.
