

Maintenance Report
May 23, 2017
Submitted by: Richard Sanchez

The maintenance department has started some yard work mowing and weed eating all around the district and catching up with Work Orders since the snow quit.

We moved the remaining of auto & wood shop materials to them.

We also have been moving lots of chairs & tables for different events such as testing at the High School, Staff Appreciation, and BCC Graduation.

Next week we plan on doing some cleaning and sweeping around the district. We will also be cleaning around BHS for graduation.
