#### **Comment [AKL1]:**

**UPDATE 1:** A new section explains the requirements for mandatory board member training as required by:

105 ILCS 5/10-16a, added by P.A. 97-8 (at least four hours of professional development leadership training);

5 ILCS 120/1.05(b) and (e), added by P.A. 97-504 (Open Meetings Act training); and

105 ILCS 5/24-16.5, added by P.A. 97-8 (training on Performance Evaluation Reform Act [PERA] evaluations).

The Legal References are also updated.  
Issue 78, January 2012

#### **Comment [AKL2]:**

**UPDATE 2:** 105 ILCS 5/10-16a, added by P.A. 97-8, requires each school district to post on its website, if any, the names of all board members who have completed the minimum of 4 hours of training described in #1. Recognizing that a board may want to highlight all training and development achievements, the sample policy extends this reporting requirement to all training and development activities.

**OPTION:** Check the "option" box if the board chooses to strictly follow the statute by using the following alternative: "The Superintendent or designee shall post on the District website the names of all Board members who have completed the professional development leadership training described in number 1, above."

*District webmaster: Post this template (including the explanatory paragraphs) on the District's website and update the table as information is provided.*

All Illinois school board members must receive training in *professional development leadership* (P.A. 97-8) and the *Open Meetings Act* (P.A. 97-504). Mandatory training will also be required after the new teacher evaluation requirements are implemented in each school district. For additional information, see Board policy 2:120, *Board Member Development*.

The following table contains mandatory and non-mandatory training and development activities that were completed by each Board member. When the training was provided by the Illinois Association of School Boards, the acronym "IASB" follows the listed activity.

Name	Development and Training Activity and Provider	Date Completed (beginning in 2012 unless otherwise noted)

The Illinois Association of School Boards (IASB) is a voluntary organization of local boards of education dedicated to strengthening the Illinois public schools through local citizen control. Although not a part of State government, IASB is organized by member school boards as a private not-for-profit corporation under authority granted by Article 23 of the School Code. The mission of the IASB is excellence in local school governance in support of quality public education.

**UPDATE 1:** 5 ILCS 120/1.05(b) applies to training administered by the Attorney General's office; 1.05(c) applies to training administered by IASB (both subparts added by P.A. 97-504). Board members seated on or before 1-1-2012 must complete the training by 1-1-2013. Board members elected or appointed after 1-1-2012 must complete the training not later than 90 days after taking the oath of office. Even before this law, compliance with the OMA has always been considered a shared responsibility of board members. Failing to complete the OMA training does not affect the validity of an action taken by the board nor is it considered a criminal violation (5 ILCS 120/1.05(b) and 120/4, amended by P.A. 97-504). However, a person found to have violated any other provisions of the OMA is guilty of a Class C misdemeanor punishable by a \$1500 fine or 30 days in jail (5 ILCS 120/4, amended by P.A. 97-504).

A student's parent(s)/guardian(s) may file a petition with the School Board requesting transportation due to the existence of a serious safety hazard. Free transportation services and vehicle adaptation for special education students shall be provided if included in the students' individualized educational programs. Homeless students shall be transported in accordance with the McKinney Homeless Assistance Act.

Unless the Superintendent or designee establishes new routes, pick-up and drop-off locations for students in day care must be along the District's regular routes. The District will not discriminate among types of locations where day care is provided, which may include the premises of licensed providers, relatives' homes, or neighbors' homes.

Bus schedules and routes shall be determined by the Director of School Site Operations and shall be altered only with the Director of School Site Operation's approval and direction. In setting the routes, the pick-up and discharge points should be as safe for students as possible.

No school employee may transport students in school or private vehicles unless authorized by the administration.

Every vehicle regularly used for the transportation of students must pass safety inspections in accordance with State law and Illinois Department of Transportation regulations. The strobe light on a school bus may be illuminated any time a bus is bearing one or more students. All contracts for charter bus services must contain the clause prescribed by State law regarding criminal background checks for bus drivers.

### **Pre-Trip and Post-Trip Vehicle Inspection**

The Superintendent or designee shall develop and implement a pre-trip and post-trip inspection procedure to ensure that the school bus driver: (1) tests the two-way radio and ensures that it is functioning properly before the bus is operated, and (2) walks to the rear of the bus before leaving the bus at the end of each route, work shift, or work day, to check the bus for children or other passengers in the bus.

### Transportation

The District shall provide free transportation for all students in the District: (1) residing at a distance of one and one-half miles or more from their assigned schools, unless the Board has certified to the Illinois State Board of Education that adequate public transportation is available or (2) residing within one and one-half miles from their assigned schools where walking to school or to a pick-up point or bus stop would constitute a serious hazard due to vehicular traffic or rail crossing, and adequate public transportation is not available. A student's parent(s)/guardian(s) may file a petition with the School Board requesting transportation due to the existence of a serious safety hazard. Free transportation services and vehicle adaptation for special education students shall be provided if included in the students' individualized educational programs. The District may provide transportation to and from school-sponsored activities. Non-public school students shall be transported in accordance with State law. Homeless students shall be transported in accordance with Section 45/1-15 of the McKinney Education for Homeless Assistance Children Act.

If a student is at a location within the District, other than his or her residence, for child care purposes at the time for transportation to and/or from school, that location may be considered for purposes of determining the 1½ miles from the school attended. Unless the Superintendent or designee establishes new routes, pick-up and drop-off locations for students in day care must be along the District's regular routes. The District will not discriminate among types of locations where day care is provided, which may include the premises of licensed providers, relatives' homes, or neighbors' homes.

Bus schedules and routes shall be determined by the Director of School Site Operations and shall be altered only with the Director of School Site Operation's approval and direction. In setting the routes, the pick-up and discharge points should be as safe for students as possible.

No school employee may transport students in school or private vehicles unless authorized by the administration.

Every vehicle regularly used for the transportation of students must pass safety inspections in accordance with State law and Illinois Department of Transportation regulations. The strobe light on a school bus may be illuminated ~~any time~~ only when the bus is actually being used as a school bus and (1) is stopping or stopped for loading or discharging students on a highway outside an urban area, or (2) is bearing one or more students. The Superintendent shall implement procedures in accordance with State law for accepting comment calls about school bus driving.

All contracts for charter bus services must contain the clause prescribed by State law regarding criminal background checks for bus drivers.

### Pre-Trip and Post-Trip Vehicle Inspection

The Superintendent or designee shall develop and implement a pre-trip and post-trip inspection procedure to ensure that the school bus driver: (1) tests the two-way radio and ensures that it is functioning properly before the bus is operated, and (2) walks to the rear of the bus before leaving the bus at the end of each route, work shift, or work day, to check the bus for children or other passengers in the bus.

### **Safety**

#### **Safety Program**

The School District shall have a safety program promoting the safety of everyone on District property or at a District event. In order that the Board can monitor this goal's achievement, the Superintendent shall make regular reports to the Board containing relevant information.

The Superintendent or designee shall develop and implement a comprehensive safety and crisis plan incorporating both avoidance and management guidelines. The comprehensive safety and crisis plan shall specifically include provisions for: injury prevention; bomb threats, weapons, and explosives on campus; school safety drill program; tornado protection; instruction in safe bus riding practices; emergency aid; post-crisis management; and responding to medical emergencies at an indoor and outdoor physical fitness facility. The term "physical fitness facility" excludes any activity or program organized by a private or not-for-profit organization and organized and supervised by a person or persons other than the employees of the school. During each academic year, each school building that houses school children must conduct a minimum of:

1. Three school evacuation drills,
2. One bus evacuation drill, and
3. One severe weather and shelter-in-place drill.

The Superintendent or appropriate designee must conduct a law enforcement drill in one of the District's school buildings during the academic year. Any appropriate local law enforcement agency may conduct and participate in this law enforcement drill. The law enforcement drill must be conducted according to the District's comprehensive safety and crisis plan and it may be conducted on days and times that students are not present in the building.

In the event of an emergency that threatens the safety of any person or property, students and staff are encouraged to use any available cellular telephone.

#### **Convicted Child Sex Offender and Notification Laws**

State law prohibits a child sex offender from being present on school property or loitering within 500 feet of school property when persons under the age of 18 are present, unless the offender meets either of the following two exceptions:

1. The offender is a parent/guardian of a student attending the school and has notified the Building Principal of his or her presence at the school for the purpose of: (i) attending a conference with school personnel to discuss the progress of his or her child academically or socially, (ii) participating in child review conferences in which evaluation and placement decisions may be made with respect to his or her child regarding special education services, or (iii) attending conferences to discuss other student issues concerning his or her child such as retention and promotion; or
2. The offender received permission to be present from the Board of Education, Superintendent or Superintendent's designee. If permission is granted, the Superintendent or Board President shall provide the details of the offender's upcoming visit to the Building Principal.

In all cases, the Superintendent, or designee who is a certified employee, shall supervise a child sex offender whenever the offender is in a child's vicinity.

If a student is a sex offender, the Superintendent or designee shall develop guidelines for managing his or her presence in school.

The Superintendent shall develop procedures for the distribution and use of information from law enforcement officials under the Child Sex Offender Community Notification Law and the Child Murderer and Violent Offender Against Youth Community Notification Law. The Superintendent or designee shall serve as the District contact person for purposes of these laws. The Superintendent and Building Principal shall manage a process for schools to notify the parents/guardians during school registration that information about sex offenders is available to the public as provided in the Sex Offender Community Notification Law. This notification must occur during school registration and at other times as the Superintendent or Building Principal determines advisable.

All contracts with the School District that may involve an employee or agent of the contractor having any contact, direct or indirect, with a student, shall contain the following:

The contractor shall not send to any school building or school property any employee or agent who would be prohibited from being employed by the District due to a conviction of a crime listed in 105 ILCS 5/10-21.9, or who is listed in the Statewide Sex Offender Registry or the Statewide Violent Offender Against Youth Database. The contractor shall obtain a fingerprint-based criminal history records check before sending any employee or agent to any school building or school property. Additionally, at least quarterly, the contractor shall check if an employee or agent is listed on the Statewide Sex Offender Registry or the Statewide Violent Offender Against Youth Database.

#### Unsafe School Choice Option

The unsafe school choice option allows students to transfer to another District school or to a public charter school within the District. The unsafe school choice option is available to:

1. All students attending a persistently dangerous school, as defined by State law and identified by the Illinois State Board of Education.
2. Any student who is a victim of a violent criminal offense, as defined by 725 ILCS 120/3, that occurred on school grounds during regular school hours or during a school-sponsored event.

The Superintendent or designee shall develop procedures to implement the unsafe school choice option.

#### Student Insurance

The Board of Education shall annually designate a company to offer student accident insurance coverage. The Board does not endorse the plan nor recommend that parents/guardians secure the coverage and any contract is between the parents/guardians and the company. Students participating in athletics, cheerleading, or pompons must have school accident insurance unless the parents/guardians state in writing that the student is covered under a family health insurance plan.

#### Emergency Closing

The Superintendent is authorized to close the schools in the event of hazardous weather or other emergencies that threaten the safety of students, staff members, or school property.

UPDATE 3: 5/10-21.9(h), amended by P.A. 97-248. The School Code defines the board president's role in conducting criminal background investigations and receiving the results of these investigations. Many districts delegate this task to the Superintendent or a human resource department. However, because the report involves a contractor's employee, the immunity provisions in the Employment Record Disclosure Act (745 ILCS 46/10) may not apply. Consult the board attorney based upon this and all relevant employment record disclosure laws.

### Personal Technology and Social Media: Usage and Conduct

#### Definitions

**Includes** - Means "includes without limitation" or "includes, but is not limited to."

**Social media** - Media for social interaction, using highly accessible communication techniques through the use of web-based and mobile technologies to turn communication into interactive dialogue. This includes *Facebook, LinkedIn, MySpace, Twitter, and YouTube*.

**Personal technology** - Any device that is not owned or leased by the District or otherwise authorized for District use and: (1) transmits sounds, images, text, messages, videos, or electronic information, (2) electronically records, plays, or stores information, or (3) accesses the Internet, or private communication or information networks. This includes smartphones such as BlackBerry®, android®, iPhone®, and other devices, such as iPads® and iPods®.

#### Usage and Conduct

All District employees who use personal technology and social media shall:

1. Adhere to the high standards for appropriate school relationships in policy 5:120, *Ethics and Conduct* at all times, regardless of the ever-changing social media and personal technology platforms available. This includes District employees posting images or private information about themselves or others in a manner readily accessible to students and other employees that is inappropriate as defined by policy 5:20, *Workplace Harassment Prohibited*; 5:120, *Ethics and Conduct*; 6:235, *Access to Electronic Networks*; 7:20, *Harassment of Students Prohibited*; and the Ill. Code of Educator Ethics, 23 Ill.Admin.Code §22.20.
2. Choose a District-provided or supported method whenever possible to communicate with students and their parents/guardians.
3. Not interfere with or disrupt the educational or working environment, or the delivery of education or educational support services.
4. Comply with policy 5:130, *Responsibilities Concerning Internal Information*. This means that personal technology and social media may not be used to share, publish, or transmit information about or images of students and/or District employees without proper approval. For District employees, proper approval may include implied consent under the circumstances.
5. Refrain from using the District's logos without permission and follow Board policy 5:170, *Copyright*, and all District copyright compliance procedures.
6. Use personal technology and social media for personal purposes only during non-work times or hours. Any duty-free use must occur during times and places that the use will not interfere with job duties or otherwise be disruptive to the school environment or its operation.
7. Assume all risks associated with the use of personal technology and social media at school or school-sponsored activities, including students' viewing of inappropriate Internet materials through the District employee's personal technology or social media. The Board expressly

**Comment [AL1]:** This policy is NEW. It is optional, but risk management experts advise employers to have a social media policy in place. We added the term *personal technology* because more often than not, social media is used with an employee's personal technology, not the employer's network. The policy defines social media and personal technology and lists appropriate usage and conduct expectations that cross reference prior established policies. This issue is an unprecedented area of the law that involves employees' First Amendment rights. This policy and/or its implementation may trigger collective bargaining requirements; the Board may wish to consult the board attorney before adoption or implementation.

Consult the board attorney when a board wants to prohibit more specific actions and/or specific speech, e.g., *friending* students on Facebook or similar social media, *tweeting* or otherwise communicating with students on Twitter or similar social media sites, and text messaging or emailing students.

disclaims any responsibility for imposing content filters, blocking lists, or monitoring of its employees' personal technology and social media.

Be subject to remedial and any other appropriate disciplinary action for violations of this policy ranging from prohibiting the employee from possessing or using any personal technology or social media at school to dismissal and/or indemnification of the District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of this policy.

The Superintendent shall:

1. Inform District employees about this policy during the in-service on educator ethics, teacher-student conduct, and school employee-student conduct required by Board policy 5:120, *Ethics and Conduct*.
2. Direct Building Principals to annually:
  - a. Provide their building staff with a copy of this policy.
  - b. Inform their building staff about the importance of maintaining high standards in their school relationships.
  - c. Remind their building staff that those who violate this policy will be subject to remedial and any other appropriate disciplinary action up to and including dismissal.

### Teacher Qualifications

A teacher, as the term is used in this policy, refers to a District employee who is required to be certified under State law. The following qualifications apply:

1. Each teacher must:
  - a. Have a valid Illinois certificate that legally qualifies the teacher for the duties for which the teacher is employed.
  - b. Provide the District Office with a complete official transcript of credits earned in institutions of higher education.
  - c. On or before September 1 of each year, unless otherwise provided in an applicable collective bargaining agreement, provide the District Office with an official transcript of any credits earned since the date the last transcript was filed.
  - d. Notify the Superintendent of any change in the teacher's transcript.
2. All teachers with primary responsibility for instructing students in the core academic subject areas (science, the arts, reading or language arts, English, history, civics and government, economics, geography, foreign language, and mathematics) must be *highly qualified* for those assignments as determined by State and federal law.

The Superintendent or designee shall:

1. Monitor compliance with State and federal law requirements that teachers be appropriately certified and *highly qualified* for their assignments;
2. Through incentives for voluntary transfers, professional development, recruiting programs, or other effective strategies, ensure that minority students and students from low-income families are not taught at higher rates than other students by unqualified, out-of-field, or inexperienced teachers; and
3. Ensure parents/guardians of students in schools receiving Title I money are notified: (a) of their right to request their students' classroom teachers' professional qualifications, and (b) whenever their child is assigned to, or has been taught for 4 or more consecutive weeks by, a teacher who is not highly qualified.

**Comment [AKL1]:** This policy is updated in the Legal References in response to P.A. 97-607. We also anticipate this policy will be renamed after ISBE implements the new Article 21B licensure system in P.A. 97-607.

P.A. 97-607 repealed 105 ILCS 5/21-0.01 et seq. and added Article 21B titled *Educator Licensure* to the School Code. 23 Ill.Admin.Code §1.610 et seq., §1.705 et seq. and Part 25 still refer to this repealed section of the School Code. Teacher *certification* will become *educator licensure* on or before July 1, 2013 (P.A. 97-607). Once the licensure system is operational, all certified employees will automatically be transitioned to having the corresponding applicable licensure. School boards may participate in the Illinois Teacher Corps; however as of Sept. 1, 2011 individuals may no longer be admitted to Illinois Teacher Corps programs (105 ILCS 5/21-11.4, amended by P.A. 97-607 and scheduled to be repealed on June 30, 2013).

### Substitute Teachers

The Superintendent may employ substitute teachers as necessary to replace teachers who are temporarily absent.

A substitute teacher must hold either a valid teaching or substitute certificate and may teach in the place of a certified teacher who is under contract with the Board. There is no limit on the number of days that a substitute teacher may teach in the District during the school year. However there is a limit on the number of days that a substitute teacher may teach for any one certified teacher under contract with the District in the same school year. The following limitations apply:

1. A substitute teacher holding a substitute certificate may teach only for a period not to exceed 90 school days.
2. A teacher holding a valid early childhood, elementary, high school, or special certificate may teach only for a period not to exceed 120 school days.

The Teachers' Retirement System (TRS) in Illinois limits a substitute teacher who is a TRS annuitant to substitute teaching for a period not to exceed 100 paid days or 500 paid hours in any school year, unless the subject area is one where the Regional Superintendent has certified that a personnel shortage exists.

The School Board establishes a daily rate of pay for substitute teachers. Substitute teachers receive only monetary compensation for time worked and no other benefits.

### Emergency Situations

A substitute teacher may teach when no certified teacher is under contract with the Board if the District has an emergency situation as defined in State law. During an emergency situation, a substitute teacher is limited to 30 calendar days of employment per each vacant position. The Superintendent will notify the appropriate Regional Office of Education within 5 business days after the employment of a substitute teacher in an emergency situation.

**Comment [AKL1]:** Due to the many changes required to this policy by P.A. 97-607 and ISBE rules, it is being offered as a rewritten document.

Substitute teaching *certificates* are governed by 105 ILCS 5/21-9, amended by P.A. 97-607, but this section will be repealed on June 30, 2013 because ISBE plans to institute a system of *educator licensure* by July 1, 2013 (P.A. 07-607). All licensure requirements and qualifications are listed in Article 21B of the School Code. Once ISBE institutes the new licensure system, substitute teaching licenses and substitute teaching will be governed by 105 ILCS 5/21B-20(3), added by P.A. 97-607.

**Comment [AKL1]:** 625 ILCS 5/6-106.1c, added by P.A. 97-466, requires drug and alcohol testing of school bus driver permit holders that is more comprehensive than federal requirements.

625 ILCS 5/6-106.1c, added by P.A. 97-466, contains State law requirements for reasonable suspicion drug and alcohol testing of school bus driver permit holders. If an employer has reasonable suspicion to believe that a school bus driver permit holder is under the influence of alcohol, drugs, or intoxicating compounds, the employer must require the permit holder to undergo testing at a licensed testing facility before driving any vehicle for which a school bus driver permit is required. The employer's reasonable suspicion must be based on specific, contemporaneous observations of appearance, behavior, speech, or body odors (49 CFR §382.307). State law makes employers of school bus driver permit holders who do not hold commercial driver's licenses subject to federal law regarding reasonable suspicion testing. The employer must report to the Ill. Secretary of State if the permit holder refuses testing or if the testing reveals the presence of alcohol, drugs, or intoxicating compounds. A school bus permit holder whose test discloses any amount of alcohol or drugs, or who refuses testing, will have his or her school bus permit suspended for 3 years. Issue 78, January 2012

### **Health, Eye, and Dental Examinations; Immunizations; and Exclusion of Students**

#### **Required Health Examinations and Immunizations**

A student's parent(s)/guardian(s) shall present proof that the student received a health examination and the immunizations against, and screenings for, preventable communicable diseases, as required by the Illinois Department of Public Health, within one year prior to:

1. Entering kindergarten or the first grade;
2. Entering the sixth grade; and
3. Enrolling in an Illinois school, regardless of the student's grade (including nursery school, special education, headstart programs operated by elementary or secondary schools, and students transferring into Illinois from out-of-state or out-of-country).

As required by State law:

1. The required health examinations must be performed by a physician licensed to practice medicine in all of its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician authorizing the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the performance of health examinations by a supervising physician.
2. A diabetes screening must be included as a required part of each health examination; diabetes testing is not required.
3. Before admission and in conjunction with required physical examinations, parents/guardians of children between the ages of 6 months and 6 years must provide a statement from a physician that their child was "risk-assessed" or screened for lead poisoning.
4. The Department of Public Health will provide all female students entering sixth grade and their parents/guardians information about the link between human papilloma virus (HPV) and cervical cancer and the availability of the HPV vaccine.

Unless the student is homeless, or transferring from out-of-state, failure to comply with the above requirements by the first day of school of the current school year will result in the student's exclusion from school until the required health forms are presented to the District. New students who register after the first day of school of the current school year shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a required immunization by the first day of school, the student must present, by the first day of school, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, advanced practice nurse, physician assistant, or local health department responsible for administering the immunizations. All new students who are first-time registrants shall have 30 days following registration to comply with the health examination and immunization regulations.

#### **Eye Examination**

Parents/guardians are encouraged to have their children undergo an eye examination whenever health examinations are required.

Parents/guardians of students entering kindergarten or an Illinois school for the first time shall present proof before October 15 of the current school year that the student received an eye examination within one year prior to entry of kindergarten or the school. A physician licensed to practice medicine in all of its branches or a licensed optometrist must perform the required eye examination.

If a student fails to present proof by October 15, the school may hold the student's report card until the student presents proof: (1) of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15. The Superintendent or designee shall ensure that parents/guardians are notified of this eye examination requirement in compliance with the rules of the Department of Public Health. Schools shall not exclude a student from attending school due to failure to obtain an eye examination.

#### Dental Examination

All children in kindergarten and the second and sixth grades must present proof of having been examined by a licensed dentist before May 15 of the current school year in accordance with rules adopted by the Illinois Department of Public Health.

If a child in the second or sixth grade fails to present proof by May 15, the school may hold the child's report card until the child presents proof: (1) of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15. The Superintendent or designee shall ensure that parents/guardians are notified of this dental examination requirement at least 60 days before May 15 of each school year.

#### Exemptions

In accordance with rules adopted by the Illinois Department of Public Health, a student will be exempted from this policy's requirements for:

1. Religious or medical grounds if the student's parents/guardians present to the Superintendent a signed statement explaining the objection;
2. Health examination or immunization requirements on medical grounds if a physician provides written verification;
3. Eye examination requirement if the student's parents/guardians show an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist; or
4. Dental examination requirement if the student's parents/guardians show an undue burden or a lack of access to a dentist.

#### Homeless Child

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce immunization and health records normally required for enrollment. Board policy 6:140, *Education of Homeless Children*, governs the enrollment of homeless children.

~~Unless the student is homeless or transferring from out-of-state, an exemption or extension applies, the failure to comply with the above requirements by the first day of school of the current school year will result in the student's exclusion from school until the required health forms are presented to the District. New students who register after the first day of school of the current school year shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a required immunization by the first day of school, the student must present, by the first day of school, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, advanced practice nurse, physician assistant, or local health department responsible for administering the immunizations. All new students who are first-time registrants shall have 30 days following registration to comply with the health examination and immunization regulations.~~

Until June 30, 2015, a student transferring from out-of-state who does not have the required proof of immunizations by the first day of school may attend classes only if he or she has proof that an appointment for the required vaccinations is scheduled with a party authorized to submit proof of the required vaccinations. If the required proof of vaccination is not submitted within 30 days after the student is permitted to attend classes, the student may no longer attend classes until proof of the vaccinations is properly submitted.

  - b. Any anabolic steroid unless being administered in accordance with a physician's or licensed practitioner's prescription.

  - e. Any inhalant, regardless of whether it contains an illegal drug or controlled substance: (a) that a student believes is, or represents to be capable of, causing intoxication, hallucination, excitement, or dulling of the brain or nervous system; or (b) about which the student engaged in behavior that would lead a reasonable person to believe that the student intended the inhalant to cause intoxication, hallucination, excitement, or dulling of the brain or nervous system. The prohibition in this section does not apply to a student's use of asthma or other legally prescribed inhalant medications.
  - f. "Look-alike" or counterfeit drugs, including a substance not containing an illegal drug or controlled substance, but one: (a) that a student believes to be, or represents to be, an illegal drug or controlled substance; or (b) about which a student engaged in behavior that would lead a reasonable person to believe that the student expressly or impliedly represented to be an illegal drug or controlled substance.
  - g. Drug paraphernalia, including devices that are or can be used to: (a) ingest, inhale, or inject cannabis or controlled substances into the body; and (b) grow, process, store, or conceal cannabis or controlled substances.

Students who are under the influence of any prohibited substance are not permitted to attend school or school functions and are treated as though they had the prohibited substance, as applicable, in their possession.

5. Prohibited conduct specifically includes, without limitation, creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person through the use of a computer, electronic communication device, or cellular phone.

6. Using or possessing a laser pointer unless under a staff member's direct supervision and in the context of instruction.
7. Disobeying rules of student conduct or directives from staff members or school officials. Examples of disobeying staff directives include refusing a District staff member's request to stop, present school identification, or submit to a search.
8. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, and wrongfully obtaining test copies or scores.
9. Engaging in hazing or any kind of bullying or aggressive behavior that does physical or psychological harm to a staff person or another student, or urging other students to engage in such conduct. Prohibited conduct specifically includes, without limitation, any use of violence, intimidation, force, noise, coercion, threats, stalking, harassment, sexual harassment, public humiliation, theft or destruction of property, retaliation, hazing, bullying, bullying using a school computer or a school computer network, or other comparable conduct.
10. Causing or attempting to cause damage to, or stealing or attempting to steal, school property or another person's personal property.
11. Being absent without a recognized excuse; State law and Board policy on truancy control will be used with chronic and habitual truants.

    - a. Soliciting others for membership in any gangs.
    - b. Requesting any person to pay protection or otherwise intimidating or threatening any person.
    - c. Committing any other illegal act or other violation of school district policies.
    - d. Inciting other students to act with physical violence upon any other person.

A "gang" as defined in this policy is any group of two or more persons whose purposes include the commission of illegal acts.

15. Engaging in any activity, on or off campus, that interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

16. Failing to comply with the mandatory uniform policy, but only after repeated attempts to secure compliance, such as conferences with parents/guardians, have been unsuccessful.

For purposes of this policy, the term "possession" includes having control, custody, or care, currently or in the past, of an object or substance, including situations where the item is: (a) on the student's person; (b) contained in another item belonging to, or under the control of, the student, such as in the student's clothing, backpack, or automobile; (c) in a school's student locker, desk, or other school property; or (d) at any location on school property or at a school-sponsored event.

Efforts, including the use of early intervention and progressive discipline, shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else. The Superintendent or designee shall ensure that the parent/guardian of a student who engages in aggressive behavior is notified of the incident. The failure to provide such notification does not limit the Board's authority to impose discipline, including suspension or expulsion, for such behavior.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

The grounds for disciplinary action, including those described more thoroughly later in this policy, apply whenever the student's conduct is reasonably related to school or school activities, including, but not limited to:

1. On, or within sight of, school grounds before, during, or after school hours or at any other time ;
2. Off school grounds at a school-sponsored activity, or event, or any activity or event which bears a reasonable relationship to school;
3. Traveling to or from school or a school activity, function, or event; or

#### Disciplinary Measures

Disciplinary measures may include:

1. Disciplinary conference.
2. Withholding of privileges.
3. Seizure of contraband.
4. Suspension from school and all school activities for up to 10 days, provided that appropriate procedures are followed. A suspended student is prohibited from being on school grounds.
5. Suspension of bus riding privileges, provided that appropriate procedures are followed.
6. Expulsion from school and all school-sponsored activities and events for a definite time period not to exceed 2 calendar years, provided that the appropriate procedures are followed. An expelled student is prohibited from being on school grounds.
7. Notifying juvenile authorities or other law enforcement whenever the conduct involves illegal drugs (controlled substances), "look-alikes," alcohol, or weapons.
8. Notifying parents/guardians.
9. Temporary removal from the classroom.
10. In-school suspension for a period not to exceed 5 school days. The Building Principal or designee shall ensure that the student is properly supervised.

11. Detention or Saturday school provided the student's parent(s)/guardian(s) have been notified. If transportation arrangements cannot be agreed upon, an alternative disciplinary measure must be used. The student must be supervised by the detaining teacher or the Building Principal or designee.

A student who is subject to suspension or expulsion may be eligible for a transfer to an alternative school program.

Corporal punishment is prohibited. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

#### Weapons

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of at least one calendar year but not more than 2 calendar years:

1. A firearm, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code (18 U.S.C. § 921), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act (430 ILCS 65/), or firearm as defined in Section 24-1 of the Criminal Code of 1961 (720 ILCS 5/24-1).
2. A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alikes" of any firearm as defined above.

The expulsion requirement under either paragraph 1 or 2 above may be modified by the Superintendent, and the Superintendent's determination may be modified by the Board on a case-by-case basis. The Superintendent or designee may grant an exception to this policy, upon the prior request of an adult supervisor, for students in theatre, cooking, ROTC, martial arts, and similar programs, whether or not school-sponsored, provided the item is not equipped, nor intended, to do bodily harm.

#### Required Notices

A school staff member shall immediately notify the Building Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Building Principal or designee shall immediately notify the local law enforcement agency, State Police, and any involved student's parent(s)/guardian(s). "School grounds" includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

#### Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment or in-school suspension, which is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Superintendent, Building Principal, Assistant Building Principal is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or

misconduct from school (including all school functions) and from riding the school bus, up to 10 consecutive school days, provided the appropriate procedures are followed. The Board of Education may suspend a student from riding the bus in excess of 10 days for safety reasons.

#### Student Handbook

The Superintendent, with input from the parent-teacher advisory committee, shall prepare disciplinary rules implementing the District's disciplinary policies. These disciplinary rules shall be presented annually to the Board for its review and approval.

A student handbook, including the District disciplinary policies and rules, shall be distributed to the students' parents/guardians within 15 days of the beginning of the school year or a student's enrollment.

### Administering Medicines to Students

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent(s)/guardian(s) believe that it is necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District's procedures on dispensing medication.

No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed "School Medication Authorization Form" is submitted by the student's parent(s)/guardian(s). No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures. A student may possess an epinephrine auto-injector (EpiPen®) and/or medication prescribed for asthma for immediate use at the student's discretion, provided the student's parent(s)/guardian(s) have completed and signed a "School Medication Authorization Form." The School District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication or epinephrine auto-injector or the storage of any medication by school personnel. A student's parent/guardian must indemnify and hold harmless the School District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine auto-injector and/or medication, or the storage of any medication by school personnel.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

The Building Principal shall include this policy in the Student Handbook and shall provide a copy to the parent(s)/guardian(s) of students.

#### NOTE:

Medication shall be administered to students in this School District under the supervision of the Principal, Assistant Principal, or School Nurse only, and only when such medication is required during school hours. If it is determined that the student shall receive medication at school, the procedures set forth below shall be followed:

1. The student's physician shall provide written orders detailing the name of the student, the type of disease or illness involved, the name of the medication, dosage time interval in which the medication is to be taken, the necessity for the medication during the day, the desired benefits of the medication, the side effects, and an emergency number where the physician can be reached. The order shall be renewed periodically and should state whether the medication may be safely administered by school personnel other than the School Nurse.
2. The student's parent or guardian shall provide to the School Nurse a written request authorizing the administration of prescription or non-prescription medication at school and indicating those persons who are authorized to administer the medication. The request shall include the parent or guardian's name and phone number in case of an emergency.
3. The written order of the physician and the written request of the parent or guardian shall be placed in the student's health file. Changes in medication shall be made only upon the written order of a physician and written request of the parent or guardian.
4. The school shall allow for student self-administration of asthma medication during school and school activities only after the student's parent or guardian has signed the District's hold,

harmless, and indemnification agreement for student self-administration of asthma medication.

### Administering Medicines to Students

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent(s)/guardian(s) believe that it is necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District's procedures on dispensing medication.

No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed "School Medication Authorization Form" is submitted by the student's parent(s)/guardian(s). No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

The Building Principal shall include this policy in the Student Handbook and shall provide a copy to the parents/guardians of students.

### Self-Administration of Medication

A student may possess an epinephrine auto-injector (EpiPen®) and/or medication prescribed for asthma for immediate use at the student's discretion, provided the student's parent(s)/guardian(s) have completed and signed a "School Medication Authorization Form." The School District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication or epinephrine auto-injector or the storage of any medication by school personnel. A student's parent/guardian must indemnify and hold harmless the School District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine auto-injector and/or medication, or the storage of any medication by school personnel.

### School District Supply of Epinephrine Auto-Injectors

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of epinephrine auto-injectors in the name of the District and provide or administer them as necessary according to State law. This section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for school epinephrine auto-injectors and a standing protocol from a physician licensed to practice medicine in all its branches, or (2) fill the District's prescription for school epinephrine auto-injectors.

Upon implementation of this subsection and Section 22-30(f) of the School Code, the protections from liability and hold harmless provisions as explained in Section 22-30(c) of the School Code apply.

No one, including without limitation parents/guardians of students, should rely on the District for the availability of an epinephrine auto-injector. This policy does not guarantee the availability of an epinephrine auto-injector; students and their parents/guardians should consult their own physician regarding this medication.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

**Comment [AL1]:** Two paragraphs moved up from below the following sub-headings.  
Issue 78, January 2012

**Comment [AKL2]:** Optional. A school board must ensure that it does not adopt this section into the policy unless it is prepared to implement 105 ILCS 5/22-30(f), amended by P.A. 97-361. The law permits a district to maintain a supply of epinephrine auto-injectors in a locked, secure location and use them when necessary. However, obtaining this prescription may be difficult or impossible. The consequences of informing the community that the district will obtain a prescription for a supply of epinephrine auto-injectors and implement a plan for their use, and then not doing it are fraught with legal liabilities and issues. The superintendent is given broad authority to implement this section; however, several preliminary steps should occur with the assistance of the board attorney. They include, but are not limited to: (1) investigating the feasibility of obtaining a prescription for a supply of epinephrine auto-injectors in the name of the district, and (2) outlining the advantages and disadvantages of implementing this plan based upon each district's individual resources and circumstances, and student population's needs.
