DCSD BENCHMARKS

The Benchmarks represent our effort to have a quarterly check-in with all of our schools and core courses. They are meant to be a useful formative tool for teachers and teams to use as they plan their instruction. Think of them as a common formative assessment for the entire district. With the exception of ELA, all standards from quarter to quarter are different from each other and cannot be compared longitudinally. Instead, we compare across the district by standard in order to show strengths in teaching and keep the district aligned.

Utah's elementary students are required to take the Acadience Reading (formerly DIBELS) assessments in grades K-3. This includes subtests measuring phonemic sound fluency, correct letter sounds, nonsense word fluency, reading rate, and reading accuracy. DCSD requires the assessment for K-5.

2022-2023 DISTRICT K-5 EOY ACADIENCE BENCHMARK RESULTS
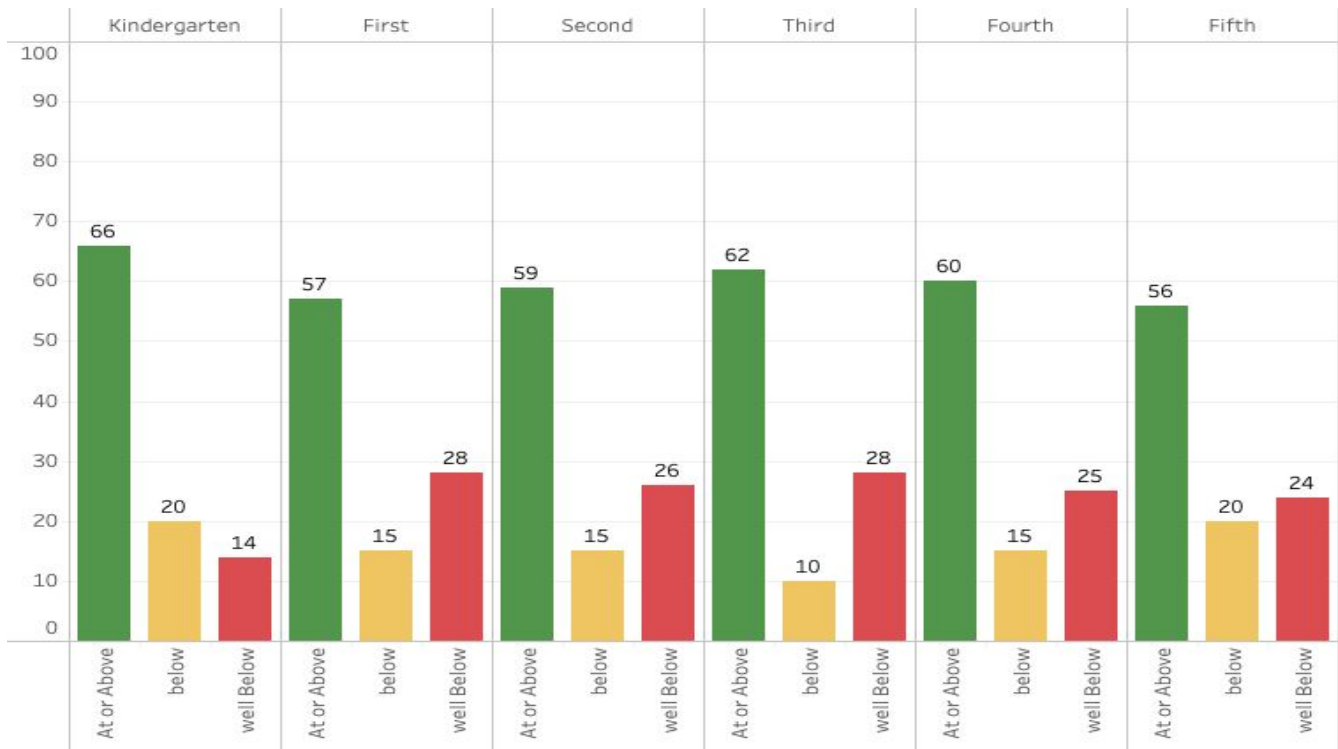

3 YEAR TREND - DISTRICT AT OR ABOVE BENCHMARK
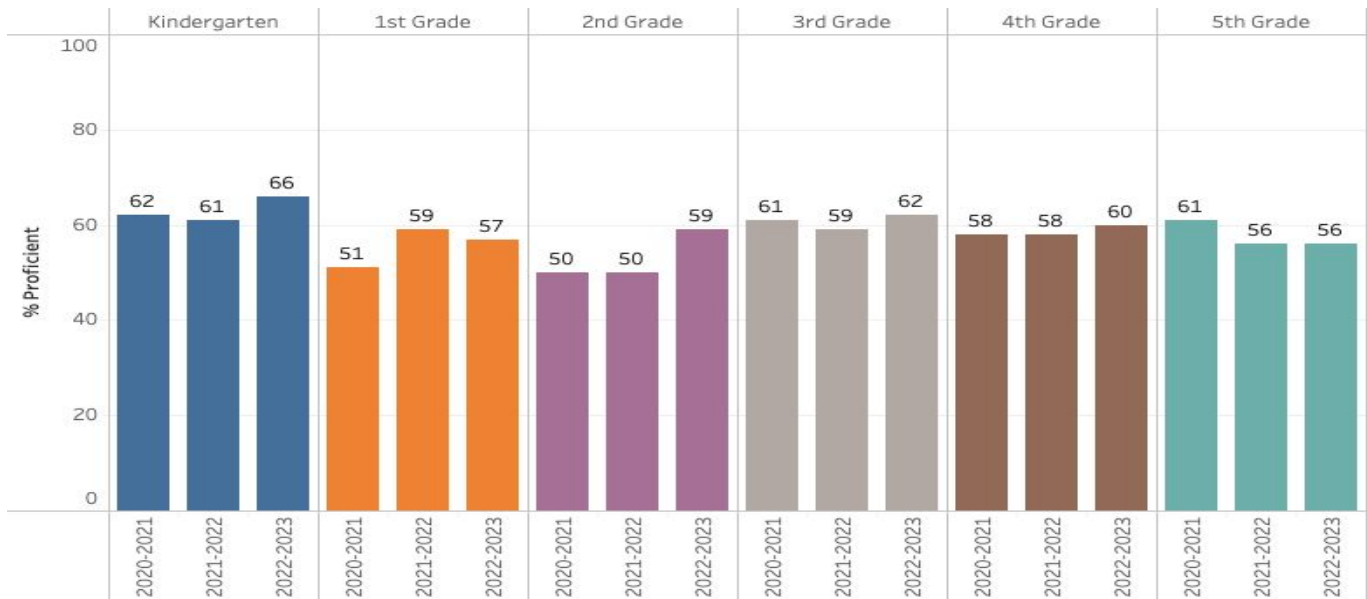

ACADIENCE READING GROWTH

The Acadience Pathways of Progress (PoP) tool uses growth from beginning of the year to the end of the year to identify progress based on students with similar initial skills, and classifies their progress as well below typical (below 20th percentile), below typical (20th to 39th percentile), typical (40th to 59th percentile), above typical (60th to 79th percentile), or well above typical (80th percentile and above). The Utah State Board of Education uses PoP scores to determine if districts are meeting the State Growth Goal performance threshold for students demonstrating typical or above typical growth.

2-YEAR TREND - DCSD GRADES 1-3 - TYPICAL OR ABOVE GROWTH
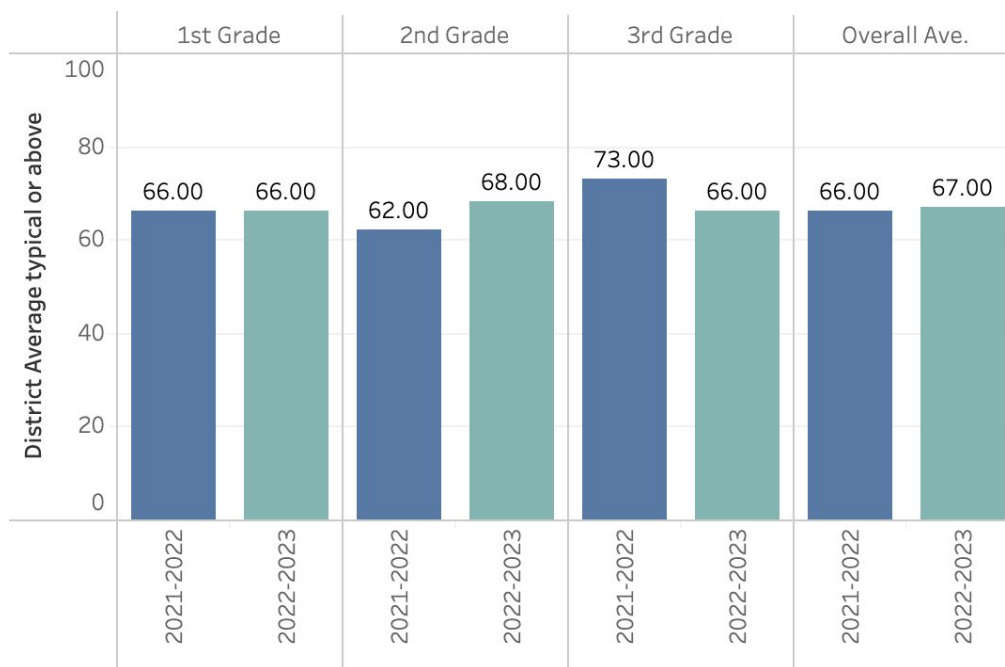

GOALS

1st - Increase 15% from BOY to EOY in Nonsense Word-Clear Letter Sound.

Result 18% Increase

2nd - To maintain BOY to EOY fluency.

Result -1% Decrease

3rd - To have at least 60% of students make typical progress or above within the PoP.

Result 66% Met PoP

ACADIENCE MATH

The Acadience Pathways of Progress (PoP) for math is similar to reading in the way it is calculated. The Utah State Board of Education uses PoP scores to determine if districts are meeting the State Growth Goal performance threshold for students demonstrating typical or above typical growth.

RISE ASSESSMENT RESULTS

RISE is a system of assessments, based on the Utah Core Standards, designed to measure student success and growth over the years. Utah's public school students are required to take RISE ELA and Math assessments in grades 3-8 and Science in grades 4-8.

UTAH ASPIRE PLUS RESULTS

The Utah Aspire Plus (UA+) assessment is a hybrid of ACT Aspire and Utah Core test items. It is a fixed-form, end-of-grade-level high school assessment for all Utah students in grades 9 and 10. Utah Aspire Plus includes four subtests: reading, English, mathematics, and science.

State ACT Testing is for all juniors in public school in Utah. The ACT is comprised of reading, English (grammar and usage), math, and science subtests. The ACT is not a knowledge test, but rather, is a test of critical thinking, problem solving, reading comprehension, and higher-level thinking skills that are important indicators of preparation for college and career.

3 YEAR TREND - DISTRICT ACT AVERAGE SCORES

14
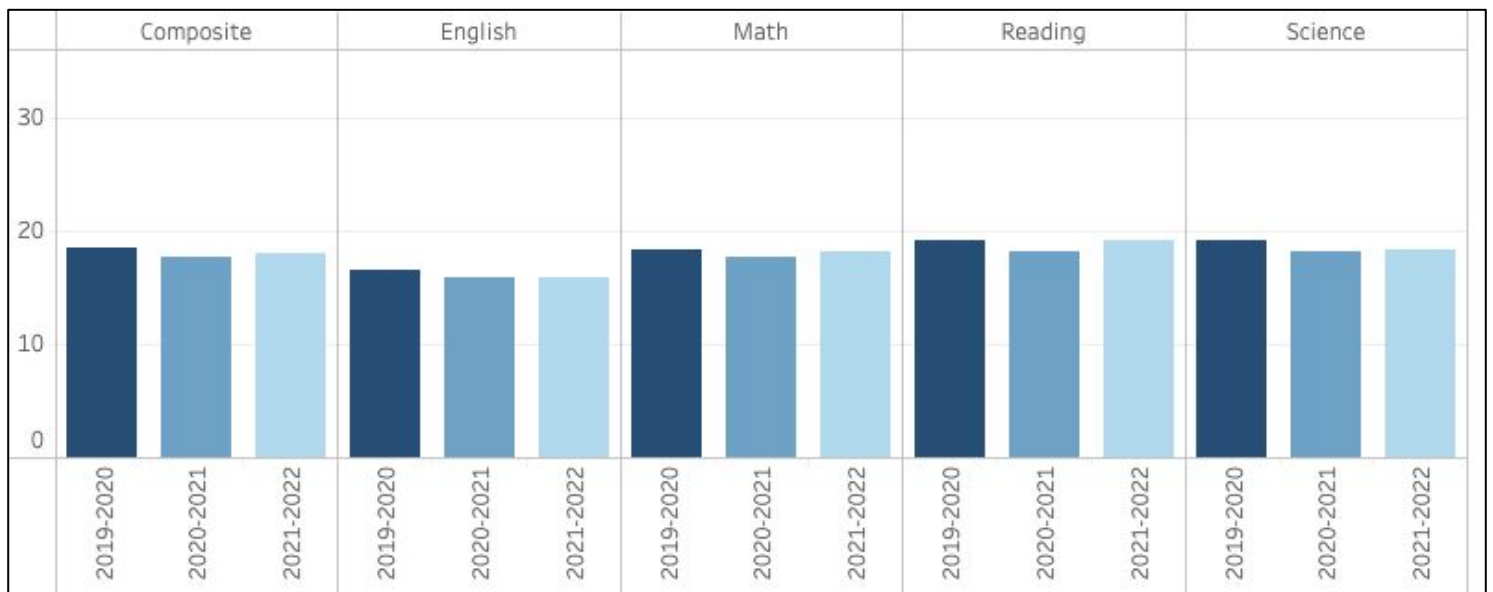

2023 GRADUATION RATES

Students are placed in a graduation cohort when they enter ninth grade and are expected to graduate within four years. For example, the cohort that entered 9th grade for the first time in the fall of the 2019-2020 school year was expected to graduate by the end of the summer, 2023. Graduation rates act as a delayed indicator for accountability and the 2023 graduation rate will be used for 2024 accountability.
