### **Background Information:**

- VLK Architects are working with staff, administration, and the Facilities Committee to develop a design for a new elementary school located on a site to be determined. We will be bringing schematic site plans and proposed floor plans for Board review and approval on June 22.

### **Administrative Considerations:**

- Plans are site adapts of the existing elementary school floor plan.
- 25% cost increase in construction is a concern.
- The schedule is being revised to allow for late construction start.
- This item was presented in detail at the Facilities Committee meeting on June 6 and will be reviewed again on June 13 prior to the June 22 board meeting.
