Agenda Item VI

2013-14 Work Session Calendar

Purpose of this Agenda Item: Information

This agenda item is scheduled as an overview of the topics planned for work sessions during this academic year.

As board members are aware, discussion during your July retreat led us to include certain items for board member information and learning. These are included in the calendar.

As the year progresses, there will likely be other topics that emerge. Dates in April, May and June allow space for these emerging priorities, especially important matters related to our long-range planning processes.

Tony Mann

A handwritten signature in black ink, appearing to read 'Tony', with a stylized flourish at the end.
