

## **Executive Director Board Report**

### **July 2024**

- Students who qualify for Extended School Year (ESY) services have been in session since last week and will continue through July 26th. Students have successfully adapted to the school routine, and it is a joy to see students back in the building!
- Our proactive approach to staffing for the 2024-2025 school year is in full swing. We are actively screening candidates for Educational Assistant positions and have launched ad campaigns to boost our recruiting efforts. This proactive stance helps to ensure that we are staffed for the upcoming academic year.
- According to the enrollment report, we are expecting a significant increase in student enrollment for the upcoming school year. We plan to start with approximately 100 students, which marks a substantial 25% rise from the previous year. As a result, we will continue to conduct intake meetings for students entering a CVSEC program in September.
- Our remodel/expansion project is continuing rapidly this summer. This will increase our effectiveness and ability to serve students' changing needs. Our maintenance staff continue their efforts quickly to prepare for the start of the school year.
- We are diligently preparing for the upcoming school year. Our new licensed staff will be welcomed on August 14th for the New Staff Academy. Our returning licensed teaching staff will begin on August 19th for Staff Workshop weeks, where they will undergo intensive professional development training that aligns with the needs of our students. Our READ Act training in CORE and LETRS will also begin during this time.
