Community Feedback

Community Feedback

We do not usually “scrub” data in family surveys. However, this was an anonymous survey where approximately 50 identical responses were received within 6 minutes so we thought it was important to show two sets of data.

Approximately 8% of the survey respondents mentioned child care as a potential obstacle their family would face as a result of this proposal. While we are unable to offer Scholar Zone these days, we are considering additional programming options for families and staff who need child care of Nova students.

Recommended Motion

We recommend the Board approved the revised calendar with all staff having the same work schedule on the 6 days which have been changed to staff work days.
