Board Report

Operations Activity Report

December 2024

Maintenance

- In the month of November, the maintenance department received 194 work orders.
- We are still down 1 groundskeeper position. We will continue to partner with our vendor to maintain the grounds until we can get the grounds department fully staffed.
- Last month we had our bleachers inspected. Upcoming inspections for December are Fire and Life Safety, ANSUL and sprinkler inspections.

Custodial

- We are fully staffed in the custodial department. We will continue to use custodial subs as we still have absences at multiple campuses.

Safety and Security

- The upgraded fencing plan is complete minus a couple of small adjustments. We will have a site visit with the installer to go over the completed work.
- Next Safety and Security Committee meeting is next month on December 12th at 6pm.
- Campuses continue to stay on track with their scheduled emergency drills.
- Junior High and Intermediate campuses had their random Intruder Detection Audit and passed without any findings.
