INTRODUCTION

Investments of local government funds in the State of Texas are governed by Section 2256 of the Government Code. All investments made by Scurry-Rosser ISD will comply with the Public Funds Investment Act and all federal, state and local statutes and/or regulations.

Overview of the requirements of the Public Funds Investment Act along with an explanation of our compliance:

1. Investments shall be made in accordance with written policies approved by the Board. These investments must emphasize safety of principal and liquidity along with yield, diversification, maturity, quality and management capability. (Gov't Code 2256.005 (b))

All investments comply with our written policy.

2. The investment policy and strategy must be reviewed at least annually. The Board will adopt a written instrument stating that it has reviewed the investment policy and strategies making note of any changes to policy or strategy. (Gov't Code 2256.005 (e))

This annual report insures compliance.

3. The Board shall perform a compliance audit of management controls on investments and adherence to the Board's established investment policies. The compliance audit shall be performed in conjunction with the annual financial audit. (Gov't Code 2256.005(m))

This is done by our auditors as part of their annual financial audit.

4. The Board shall adopt a separate written investment strategy for each of the funds or group of funds under the Board's control. Each investment strategy must describe the investment objectives for the particular fund as it relates to suitability of the investment, preservation and safety of principal, liquidity, marketability of the investment prior to maturity, diversification and yield. (Gov't Code 2256.005(d))

This annual report insures compliance.

5. Investment Officer must complete at least one training session within the first 12 months of assuming office and then must receive at least 10 hours of training in each two-year period thereafter. (Gov't Code 2256.008(a,b))

Mrs. Proctor completed 10 hours in May, 2013.

6. Investments shall be made with judgment and care that a person of prudence would exercise in the management of his or her own affairs, not for speculation, but for investment, considering safety and income. Investments shall be governed by the objectives of preservation and safety of principal, liquidity and yield. These are in order by priority. (Gov't Code 2256.006)

All district investments are in certificates of deposit or pool funds which inherently have these objectives.

INTRODUCTION

7. The investment officer is subject to special provisions if a personal business relationship exists between him or her and the broker/dealer. (Gov't Code 2256.005(i))

Investment officer has no personal business relationship with any broker dealers which fall under this statute.

8. The Investment Officer shall prepare at least quarterly a written report of investment transactions for all funds giving a detailed description of the investment position of the District as of the date of the report with each investment's beginning market value, additions and changes and ending market value for the period. The report will also include maturity dates for applicable investments and provide a statement of compliance of the investment portfolio as it relates to the District's investment strategy. RECOMMENDATIONS

Review

Interest rates continued to hold at historic lows under .25%.

The main goal of the district's investment program is to ensure its safety and maximize financial returns within current market conditions in accordance with our investment policy.

The Scurry-Rosser ISD local investment policy (CDA (LOCAL)) permits two investment types: certificates of deposit and share certificates as permitted by Government Code 2256.010 and public funds investment pools as permitted by Government Code 2256.016.

Strategy

All funds of Scurry-Rosser ISD are invested first and foremost with the principles of safety, liquidity, and yield in mind in that order. For General Operating funds, interest rates and cash balances are monitored closely so that all idle cash is earning the highest rate possible given cash flow needs throughout the year. Interest and Sinking funds are invested primarily in pools for liquidity and to ease depository collateral concerns.

Plan

Continuous monitoring of economic trends coupled with regular scrutiny of idle cash balances are key components to a successful investment plan. The plan for 2013-2014 will be to continue to ladder CD maturities, when appropriate, to decrease interest rate risk, maintain moderate liquidity and maximize returns. Excess funds will also continue to be swept from cash to higher yielding pools to safely increase return while maintaining overnight liquidity.
