Minidoka County School District

Technology Dept.
November 19, 2018

Student Technology

- West had 150 new laptops replaced and 5 carts rewired for the correct power. The 150 new laptops are currently in use.
- East has 150 new laptops programmed, but still need the carts rewired for the correct power. They are currently still using the old ones.
- 250 of the old laptops from East and West will be refurbished and handed out to Minico Seniors.
- We have received the 240 refurbished desktops to replace half of our labs in the district to take care of Windows 7 ending in 2020. We will need to replace the other half of our labs next year. The installation of these lab computers has been pushed back until the Minico Seniors have been handed out their laptops.

Security/Video

- We have started replacing and increasing the video cameras on all the main entrance doors in the district. Our priority is outside entrances, bus drop-offs, hallways, then classrooms.

Work Orders

- Numbers are both Maintenance and Technology

August	September	October
247 New	175 New	182 New
