Boys came home with blue ribbons. There were K-2, 3-6, 7-12 groups by grade. Battle of The Book Awards were given. We were under budget on Food \$452.00, originally given much larger budget. Ate at the school restaurant and Nick Higson helped out too. Saw black bears, deer, flying squirrel, and a wolf.

Treasury Report \$3,352.06 does not include the P.A. Country Club so another check of \$350.00 (approx..) to add to that.

School Budgets – Legislative is cutting everything. Closing Port Protection. Travel budget probably to not exist, teacher travel went down, and then the site travel too. We have younger kids coming up and so it looks good to keep Port Alexander in a good position. Wasilla Representative wanting 25 students, close the little communities, it would close 60 communities, and schools. They have not passed a budget yet. They are also cutting college education scholarships. Cutting 175 teachers from Alaska University.

Shoe Policy – Beginning of the year prefer shoes and boots. We are requiring inside shoes (tennis shoes) and then outside shoes (boots). This is also a requirement for proper safety footwear for P.E. to prevent trips or falls. Maybe Crocs. to keep at school.
