Summary: Navarro's National Math Stars have been recognized for being within the top 2% of scores from each elementary campus on a recent math aptitude or achievement assessment (NWEA MAP, CogAT, etc.), or any student who scored above the state/national 98th percentile on a recent math aptitude or achievement assessment (NWEA MAP, CogAT, etc.), or any students whom

teachers identify as having extraordinary math potential (with or without a top score). Navarro Elementary has 23 students, and Navarro Intermediate has 4.

**Background
Information:**

National Math Stars supports mathematically extraordinary students with additional resources to reach the frontiers of math and science. The Voyager program is a ten-year, fully funded program that supports and inspires our Stars' mathematical journeys from as early as second grade through the end of high school. Voyager is designed to support Star students and their families with both educational guidance and financial support. In the next ten years of their educational journey, Voyager offers the opportunity of more than \$100,000 investment in each Star student to create a pathway for them to reach the frontiers of mathematics, science, and technology. Every Star is unique, in which Voyager will work in close partnership with them and their families to design a journey that aligns with their strengths and interests.
