Bring Your Own Technology (BYOT) Program; Responsible Use and Conduct

On rare occasions, the Superintendent or designee shall establish a *Bring Your Own Technology (BYOT) Program*. The program will:

1. Promote educational excellence by facilitating resource sharing, innovation, and communication to enhance (a) technology use skills; (b) web-literacy and critical thinking skills about Internet resources and materials, including making wise choices; and (c) habits for responsible digital citizenship required in the 21st century.
2. Provide sufficient wireless infrastructure within budget parameters.
3. Provide access to the Internet only through the District's electronic networks.
4. Identify approved BYOT devices and what District-owned technology devices may be available; e.g., laptops, tablet devices, E-readers, and/or smartphones.
5. Align with Board policies 4:140, *Waiver of Student Fees*; 5:120, *Employee Ethics; Code of Professional Conduct; and Conflict of Interest*; 5:125, *Personal Technology and Social Media; Usage and Conduct*; 5:170, *Copyright*; 6:120, *Education of Children with Disabilities*; 6:235, *Access to Electronic Networks*; 7:140, *Search and Seizure*; 7:180, *Prevention of and Response to Bullying, Intimidation, and Harassment*; 7:190, *Student Behavior*; 7:340, *Student Records*; and 7:345, *Use of Educational Technologies; Student Data Privacy and Security*.
6. Provide relevant staff members with BYOT professional development opportunities, including the provision of:
 - a. Classroom management information about issues associated with the program, e.g., technical support, responsible use, etc.;
 - b. A copy of or access to this policy and any building-specific rules for the program;
 - c. Additional training, if necessary, about 5:170, *Copyright*; and

Responsible Use

The District recognizes students participating in the program as responsible young adults and holds high expectations of their conduct in connection with their participation in the program. Teachers may encourage students to bring their own devices as supplemental in-class materials when: (a) using the devices will appropriately enhance, or otherwise illustrate, the subjects being taught; (b) the Building Principal has approved their use and found that their use is age-appropriate; and (c) the student's parent/guardian has signed the *Bring Your Own Technology (BYOT) Program Participation Authorization and Responsible Use Agreement Form*. A student's right to privacy in his or her device is limited; any reasonable suspicion of activities that violate law or Board policies will be treated according to policy 7:140, *Search and Seizure*.

Responsible use in the program incorporates into this policy the individual's *Acceptable Use of Electronic Networks* agreement pursuant to Board policy 6:235, *Access to Electronic Networks*. Responsible use also incorporates the established usage and conduct rules in Board policies 5:125, *Personal Technology and Social Media; Usage and Conduct*, for staff, and 7:190, *Student Behavior*,

The term *electronic networks* includes all of the District's technology resources, including, but not limited to:

1. The District's local-area and wide-area networks, including wireless networks (Wi-Fi), District-issued Wi-Fi hotspots, and any District servers or other networking infrastructure;
2. Access to the Internet or other online resources via the District's networks or to any District-issued online account from any computer or device, regardless of location;
3. District-owned or District-issued computers, laptops, tablets, phones, or similar devices.

The Superintendent shall develop an implementation plan for this policy and appoint system administrator(s).

Furthermore, the District will not be responsible for any unauthorized charges or fees resulting from access to the Internet.

Curriculum and Appropriate Online Behavior

The use of the District's electronic networks shall: (1) be consistent with the curriculum adopted by the District as well as the varied instructional needs, learning styles, abilities, and developmental levels of the students, and (2) comply with the selection criteria for instructional materials and library resource center materials. As required by federal law and Board policy 6:60, *Curriculum Content*, students will be educated about appropriate online behavior, including but not limited to: (1) interacting with other individuals on social networking websites and in chat rooms, and (2) cyberbullying awareness and response. Use is a privilege, not a right. Users of the District's electronic networks have no expectation of privacy in any material that is stored on, transmitted, or received via the District's electronic networks. General rules for behavior and communications apply when using electronic networks. The District's administrative procedure, *Acceptable Use of the District's Electronic Networks*, contains the appropriate uses, ethics, and protocol. Electronic communications and downloaded material, including files deleted from a user's account but not erased, may be monitored or read by school officials.

Internet Safety

They shall include a filtering device that protects against Internet access by both adults and minors to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by federal law and as determined by the Superintendent or designee. The Superintendent or designee shall enforce the use of such filtering devices. An administrator, supervisor, or other authorized person may disable the filtering device for bona fide research or other lawful purpose,

provided the person receives prior permission from the Superintendent or system administrator. The Superintendent or designee shall include measures in this policy's implementation plan to address the following:

1. Ensure staff supervision of student access to online electronic networks,
2. Restrict student access to inappropriate matter as well as restricting access to harmful materials,
3. Ensure student and staff privacy, safety, and security when using electronic communications,
4. Restrict unauthorized access, including "hacking" and other unlawful activities, and
5. Restrict unauthorized disclosure, use, and dissemination of personal identification information, such as, names and addresses.

Use of Artificial Intelligence (AI)-Enabled Tools

The Board recognizes that AI-enabled tools are important to enhance student learning, educator effectiveness, and school operations. The use of AI-enabled tools in the District shall be implemented in a safe, ethical, and equitable manner and in accordance with Board policies 1:30, *School District Philosophy*, and 7:345, *Use of Educational Technologies; Student Data Privacy and Security*.

To implement the use of AI-enabled tools in the District, the Superintendent or designee shall:

6. Develop a District-wide AI Plan that addresses the District's approach to the integration of AI;
7. Based on the District-wide AI Plan, establish AI Responsible Use Guidelines to address the responsible use of AI in the District by students and staff;
8. Ensure that AI-enabled tools comply with State and federal law;
9. Ensure that staff receive training and students receive instruction on the use of AI, as appropriate; and
10. Review the District's AI Plan and AI Responsible Use Guidelines on an annual basis and update them as needed.

Authorization for Electronic Network Access

Each staff member must sign the *Authorization for Access to the District's Electronic Networks* as a condition for using the District's electronic network. Each student and his or her parent(s)/guardian(s) must sign the *Authorization* before being granted unsupervised use.

Confidentiality

All users of the District's computers to access the Internet shall maintain the confidentiality of student records. Reasonable measures to protect against unreasonable access shall be taken before confidential student information is loaded onto the network.

Field trips are permissible when the experiences are a part of the school curriculum and/or contribute to the District's educational objectives.

All field trips must have the Superintendent or designee's prior approval, except that field trips beyond a 200-mile radius of the school or extending overnight must have the prior approval of the School Board. The Superintendent or designee shall analyze the following factors to determine whether to approve a field trip: educational value, student safety, parent concerns, heightened security alerts, and liability concerns. On all field trips, a bus fee set by the Superintendent or designee may be charged to help defray the transportation costs.

Parents/guardians of students: (1) shall be given the opportunity to consent to their child's participation in any field trip; and (2) are responsible for all entrance fees, food, lodging, or other costs, except that the District will pay such costs for students who qualify for a fee waiver under Board policy 4:140, *Waiver of Student Fees*. All non-participating students shall be provided an alternative experience. Any field trip may be cancelled without notice due to an unforeseen event or condition.

Grading and Promotion

The Superintendent or designee shall establish a system of grading and reporting academic achievement to students and their parents/guardians. The system shall also determine when promotion and graduation requirements are met. The decision to promote a student to the next grade level shall be based on successful completion of the curriculum, attendance, and performance on the standardized tests required by the Ill. The administration shall determine remedial assistance for a student who is not promoted.

Every teacher shall maintain an evaluation record for each student in the teacher's classroom. A District administrator cannot change the final grade assigned by the teacher without notifying the teacher. Reasons for changing a student's final grade include:

- A miscalculation of test scores,
- A technical error in assigning a particular grade or score,
- The teacher agrees to allow the student to do extra work that may impact the grade,
- An inappropriate grading system used to determine the grade, or
- An inappropriate grade based on an appropriate grading system.

Should a grade change be made, the administrator making the change must sign the changed record.

If the student is not at least 18 years of age or legally emancipated, the student's parent/guardian must file one of these documents on the student's behalf.

A student is exempt from this requirement if: (1) the student is unable to file a financial aid application or an ISBE waiver due to extenuating circumstances, (2) the Building Principal attests the District made a good faith effort to assist the student or the student's parent/guardian with filing a financial aid application or an ISBE waiver form, and (3) the student has met all other graduation requirements.

The Superintendent or designee is responsible for:

1. Maintaining a description of all course offerings that comply with the above graduation requirements.
2. Notifying students and their parents/guardians of graduation requirements.
3. Developing the criteria for #4 above.
4. Complying with State law requirements for students who transfer during their senior year because their parent(s)/guardian(s) are on active military duty. This includes making reasonable adjustments to ensure graduation if possible, or efforts to ensure that the original (transferor) school district issues the student a diploma.

within the District at the time he or she left high school, (2) left high school before graduating in order to serve in the U.S. Armed Forces, and (3) has not received a high school diploma.

High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students

Credit for Non-District Experiences

A student may receive high school credit for successfully completing any of the listed courses or experiences even when it is not offered in or sponsored by the District:

1. Distance learning course, including a correspondence, virtual, or online course
2. Courses in an accredited foreign exchange program
3. Summer school or community college courses
4. College or high school courses offering dual credit at both the college and high school level
5. Foreign language courses taken in an ethnic school program approved by the Illinois State Board of Education
6. Work-related training at manufacturing facilities or agencies in a Tech Prep Partnership for Careers program
7. Credit earned in a Vocational Academy

The student must seek approval from the Superintendent or designee to receive graduation credit for any non-District course or experience. The Superintendent or designee shall determine the amount of credit and whether a proficiency examination is required before the credit is awarded. As approval is not guaranteed, students should seek conditional approval of the experience before participating in a non-District course or experience. The student assumes responsibility for any fee, tuition, supply, or other expense. The student seeking credit is responsible for (1) providing documents or transcripts that demonstrate successful completion of the experience, and (2) taking a proficiency examination, if requested. The Superintendent or designee shall determine which, if any, non-District courses or experiences, will count toward a student's grade point average, class rank, and eligibility for athletic and extracurricular activities. When applicable, the Building Principal or designee shall, prior to the first day of class, inform individual high school students enrolled in a mixed enrollment dual credit course that includes students who have and have not met the community college's criteria for dual credit coursework of whether or not they are eligible to earn college credit for the course. This section does not govern the transfer of credits for students transferring into the District.

Substitutions for Required Courses

Vocational or technical education. A student in grades 9-12 may satisfy one or more high school courses (including physical education) or graduation requirements by successfully completing related vocational or technical education courses if:

1. The Building Principal approves the substitution(s) and the vocational or technical education course is completely described in curriculum material along with its relationship to the required course; and
2. The student's parent/guardian requests and approves the substitution(s) in writing on forms provided by the District.

Registered Apprenticeship Program. The Superintendent or designee will ensure that the District complies with State law requirements for registered apprenticeship programs. The opportunities and requirements for registered apprenticeship programs contained in this policy will be posted on the District's website, and parents/guardians and students will also be notified of such opportunities in the appropriate school handbook(s).

A student in grades 9-12 who is 16 years or older may satisfy one or more high school courses (including physical education) or graduation requirements by successfully completing a registered apprenticeship program if:

3. The registered apprenticeship program meets all criteria contained in State law;
4. The registered apprenticeship program is listed by the District, or the student identifies a registered (but not listed) apprenticeship program with a business or organization if one is not offered in the District;
5. The student enrolled in a registered apprenticeship program has the opportunity to earn post-secondary credit toward a certificate or degrees, as applicable;
6. The student's parent/guardian requests and approves the substitution(s) in writing on forms provided by the District and on its website;
7. The Building Principal approves the substitution(s); and
8. All non-academic requirements mandated by the School Code for high school graduation that would otherwise prohibit or prevent the student from participating in the registered apprenticeship program are waived.

Advanced placement computer science. The advanced placement computer science course is equivalent to a high school mathematics course. A student in grades 9-12 may substitute the advanced placement computer science course for one year of mathematics, in accordance with Section 27-22 of the School Code. The transcript of a student who completes the advanced placement computer science course will state that it qualifies as a mathematics-based, quantitative course.

Substitutions for physical education. A student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated below. The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student's individual circumstances, as appropriate.

9. Ongoing participation in a marching band program for credit;
10. Enrollment in Reserve Officer's Training Corps (ROTC) program sponsored by the District;
11. Ongoing participation in an *interscholastic* or *extracurricular athletic program*;
12. Enrollment in academic classes that are required for admission to an institution of higher learning (student must be in the 11th or 12th grade); or
13. Enrollment in academic classes that are required for graduation from high school, provided that failure to take such classes will result in the student being unable to graduate (student must be in the 11th or 12th grade).

A student who is eligible for special education may be excused from physical education courses pursuant to 7:260, *Exemption from Physical Education*.

Volunteer service credit. A student participating in the District's Volunteer Service Credit Program, if any, may earn credit toward graduation for the performance of community service. The amount of credit given for program participation shall not exceed that given for completion of one semester of language arts, math, science, or social studies.

Re-Entering Students

Individuals younger than 21 years of age may re-enter high school to acquire a high school diploma or an equivalency certificate, subject to the limitations in Board policy 7:50, *School Admissions and Student Transfers To and From Non-District Schools*. Re-entering students may obtain credit through the successful completion of the following (not all of these may be available at any one time):

14. District courses
15. Non-District experiences described in this policy
16. Classes in a program established under Section 10-22.20 of the School Code, in accordance with the standards established by the Illinois Community College Board

High School Credit for Students in Grade 7 or 8

The Superintendent or designee may investigate, coordinate, and implement a program for students in grades 7 and 8 to enroll in a course required for a high school diploma.

[The next two paragraphs are only for unit and high school districts; the final paragraph is only for elementary districts.]

If a program is available, students in grades 7 and 8 may enroll in a course required for a high school diploma when the course is offered by the high school that the elementary student would attend and one of the following is satisfied: (1) the student participates in the course at the high school and the elementary student's enrollment in the course would not prevent a high school student from being able to enroll, or (2) the student participates in the course where the student attends school as long as the student passes the course and the end-of-course examination given at the high school granting the credit for the same course, demonstrating proficiency at the high school level, or (3) the course is taught by a teacher who holds a professional educator license with an endorsement for the grade level and content area of the course.

A student who successfully completes a course required for a high school diploma while in grades 7 and 8 shall receive academic credit for the course. That academic credit shall satisfy the requirements of 105 ILCS 5/27-615 for purposes of receiving a high school diploma, unless evidence about the course's rigor and content show that the course did not address the relevant Illinois learning standard at the level appropriate for the high school grade during which the course is usually taken. The student's grade in the course shall also be included in the student's grade point average.

[Elementary school districts only]

If a program is available, students in grades 7 and 8 may enroll in a course required for a high school diploma. Students in grades 7 and 8 who successfully complete a course required for a high school diploma will receive academic credit if permitted by, and in accordance with, the policy of the district where the elementary student will attend high school.

High School Credit for Proficiency

Proficiency Credits

Subject to the limitations in this policy and State law, the Superintendent or designee is authorized to establish and approve a program for granting credit for proficiency with the goal of allowing a student who would not benefit from a course because the student is proficient in the subject area to receive credit without having to take the course. A student who demonstrates competency under this program will receive course credit for the applicable course and be excused from any requirement to take the course as a graduation prerequisite. No letter grade will be given for purposes of the student's cumulative grade point average. The Superintendent or designee shall notify students of the availability of and requirements for receiving proficiency credit.

Proficiency credit will be offered in the following subject areas:

Foreign language - A student is eligible to receive one year of foreign language credit if the student has graduated from an accredited elementary school and can demonstrate proficiency, according to this District's academic criteria, in a language other than English. A student who demonstrates proficiency in American Sign Language is deemed proficient in a foreign language and will receive one year of foreign language credit. A student who studied a foreign language in an approved ethnic school program is eligible to receive appropriate credit according to the level of proficiency reached; the student may be required to take a proficiency examination.

Other proficiency testing - The program for granting credit for proficiency may allow, as the Superintendent deems appropriate, course credit to be awarded on the basis of a local examination to a student who has achieved the necessary proficiency through independent study or work taken in or through another institution. Proficiency testing may also be used to determine eligible credit for other subjects whenever students enter from non-graded schools, non-recognized or non-accredited schools, or were in a home-schooling program.
