Project

The Spookinaapi (Good Health) Project is a 5-year prevention Grant from SAMHSA. The Project is a three (3) tiers socio-cultural-ecological approach to drug and alcohol prevention/recovery for youth ages 9-20 designed to incorporate the Tribal Behavioral Health Agenda (TBHA) foundational elements that are culturally appropriate to the Blackfeet Tribe, and will be a community-driven effort to target suicide prevention, under-age drinking, marijuana and prescription pain killers (opioids) use amongst ages 9-20 years of age. The project will provide researched evidence-based prevention programs in the Schools grades 4-12th, provide information and awareness in the community, provide positive mentors, and implement cultural activities.

Three (3) Goal

- Goal 1: Provide Prevention education, activities and awareness for the schools an community.
- Goal 2. Continue to serve caseload in each building and provide access to Mental Health services
- Goal 3: Establish a mentoring program for each building and target at-risk students.

Current Projects

>Participated in the Bullying Prevention Campaign

- >Participating with Red Ribbon Week
- >Helping with Light on after school
- >Searching for culturally research evidence-based program to be implemented in the schools.
- >Implementing Center or Substance Abuse Prevention (CSAP) Strategies
