5. I would like to take this opportunity to recognize the staff at the high school! This has been an amazing year of changes and challenges. They did such an incredible job of making each of those challenges and changes into opportunities to grow and did it all with grace and patience. Nancy Sandeen described the staff the best when she wrote **"We are a FAMILY...in modern terms, a collective group of people (some here by choice, some not) working together as lifelong teachers and learners in an ever-changing world to make ourselves stronger. We celebrate success and failure. We value acceptance and difference. We strive to be responsible and resilient. Go, RANGER FAMILY, Go!"**
