# MDE Academic Standards (K-12)

The Minnesota K-12 Academic Standards are the statewide expectations for student learning in K-12 public schools. School districts are required to put state standards into place so all students have access to high-quality content and instruction.

[Per Minnesota Statutes, section 120B.018](#), an academic standard is a summary description of student learning in a content area. Academic standards are comprised of one or more benchmarks. A benchmark supplements the standard and is the specific knowledge or skill that a student must master to complete part of an academic standard by the end of a grade level or grade band.
