Subject: Policy Revisions- Suspected Abuse and Neglect JGI

The State of Michigan and the Michigan Department of Health and Human Services have joined efforts and created an online Mandated Reporter System. This system allows for mandated reporters to report incidents of child abuse and neglect into an online system. This new system collects the same information provided to the Centralized Intake hotline and creates an electronic record of the incident. We will be recommending the addition of "online" reporting as an additional means to report child abuse and neglect in policy JGI. Online reporting does not apply to vulnerable adult reporting. This will be presented at the Committee of the Whole meeting on July 24, 2019 with a recommendation for a first reading at the July 24, 2019 Regular Board meeting.

Please let me know if additional information is needed on this topic.
