

Naukati February Board Report

The Naukati School had several students place in the Island-wide NYO tournament. We are practicing to hopefully win a few spots to again go to Juneau in April. The students are excited and motivated to push themselves to attain their personal best!

On February 2, Naukati Archers attended a tournament in Thorne Bay. We will have the state tournament on Feb. 23 & 24. The upcoming elementary archers are growing quickly in their archery skills.

Naukati has nine students taking a dual-credit Nautical Skills class through AVTEC. They are learning so much in a short time. One of the daily practices is that of knot tying. The students end up spending their day tying everything up in the school. Keep up the awesome work students!

We will begin to make fur hats in mid-February to be prepared for next year's harsh winter weather. We feel we have been getting off easy this year, so we need to be better prepared for the upcoming storm.

On the last day of the month, the students and staff will participate in our Annual Iditarod Reading Race. Students will read their forever-reading, book-loving hearts out until the Red Lantern Award has been given.

The Red Lantern Award is given to the final racer.

Following the perseverance and hard work it takes that last individual to finish is really awe inspiring and character building. Good Luck Musers! Good Luck Readers!

Naukati students and staff are wishing everyone a wonderful February.
