

HISD Transportation

The 25-26 school year has kicked off and Transportation has been busy getting everything ready for a successful year. We lost several drivers this past year due to various reasons but we have hired several new drivers and trained several people and we have filled all but 1 position. We also consolidated 1 route as well. The route that does not have a driver is the shortest route we have. After school gets underway we are going to do counts and adjust routes as needed to balance them out and possibly consolidate another route. At this time we have an average of 50 students per bus which is a pretty good average. We are always looking for ways to do things more efficiently. We appreciate your continued time and support. Please continue to pray for the safety of all of our students and staff.

Thanks,
Roy
