#### **Background Information:**

The District current operates three white activity buses to support student programming. These buses are leased from Midwest Transit Equipment. It was planned that these vehicles would be replaced for the coming school year. However, vehicle availability due to equipment shortages forces the district to delay this planned replacement for one additional year.

These activity buses have a lease ending this school year which are recommended to be renewed for the 2021-2022 school year. The total cost of a one-year renewal of this equipment totals \$24,372.
