Basic information: (Situation)
Previously, the board approved the 22/23 School Calendar with two (2) E-Learning dates that were necessary due to election dates where some of our schools serve as polling places. One of those dates has been cancelled. Therefore, we can consider changing this E-Learning day to a student attendance day.
Background or historical information: (Considerations)
The Dupage Election Division has election dates posted on the website. When the district was developing the 22/23 calendar, February 28th was listed as "CONSOLIDATED PRIMARY ELECTION (if necessary)." The district accounted for this date and approved an E-Learning day on February 28th as a safety precaution so that our students could attend classes remotely from home while some of our schools served as polling places.
Previous decisions, actions or parameters that relate to this topic or issue: (Options) 3 options
There is no impact to the number of school days our students will attend this year. There is no impact to staff as they were already notified that they would report to work and teach from the buildings while students attended classes remotely.
Recommendations: (Recommendations) and (Evaluate)
District Administration recommends that we amend the calendar to replace the Feb 28th E-Learning Day with a student attendance day.
