

Collin County Community College District Board of Trustees

2019-3-3

March 26, 2019

Bill King

Vice President Provost

AGENDA ITEM: Consideration of Approval for a Contract for Electronic Access Software and Equipment from CBORD to Retrofit Existing Campuses as Required by the Safety Plan

DISCUSSION: At its meeting on November 14th, 2017 the Board of Trustees approved the Collin College Safety Plan which included modifying necessary entrances & egresses throughout the district to be instantaneously locked in case of an active shooter event. The new system will allow for all external doors to be locked immediately through the CBORD operating system without any manual intervention.

CBORD and Blackhawk Integrations, along with Collin College IT, Police and Facilities leadership, conducted a scope analysis and developed this recommendation. The hardware and readers will be manufactured by ASSAY ABLOY (Corbin Russwin) which is the College facilities standard developed for the 2017 capital improvement program.

Implementation will begin in late spring-early summer 2019. The planned retrofit sequence is: Courtyard, Collin Higher Education Center, McKinney, Frisco and Plano campuses. The duration of the project schedule is 9 to 12 months with a not-to-exceed cost of \$2,500,000 (which includes a 9.5% contingency).

DISTRICT PRESIDENT'S RECOMMENDATION: The District President recommends approval of a contract to purchase software and equipment from CBORD to retrofit exterior entrances of existing campuses to an electronic access system.

SUGGESTED MOTION: "Mr. Chairman, I make a motion that the Board of Trustees of Collin County Community College District approve a contract to purchase software and equipment from CBORD to retrofit exterior entrances of existing campuses to an electronic access system."
