Facts of this Matter:

As part of the October 2025 meeting of the Board of School Trustees, Supplemental Fees were approved for all grades for the 2025-2026 school year as permitted by law. As invoices were being prepared for families, discrepancies were noted within the charges for various art courses at the middle and high school level. At this time, we would like to correct those few items by course and obtain approval for a final fee version before billing to our secondary families begins.

Objective NEGATIVES related to this item or approach:

None.

Opinion/Recommendation:

It is recommended that the Board of School Trustees approve the adjustments for the charges for supplemental curricular materials fees for the 2025-2026 school year as identified. All other fees remain as approved at the October 2025 meeting.

Financial Implications, if any:

As noted above, the recommended fees are designed to recoup costs for those consumable items that are supplemental to instruction and used and/or consumed in a single school year by an individual student.
