March 4th, 2019

Dear Board Members,

The month of February arrived with it's wintery blasts of coldness. The students of Big Sky Colony have been busy working on their daily schedule of subjects and keeping warm. The students participated in the district writing assessment and are to be commended for their effort. During this month students worked on several geography topics and selected different countries to research and record their findings, data, and things of interest to their country selected. Students utilized the Chromebooks to access their web searches for their country project.

The students were treated to an outdoor activity by the Glacier National Park Rangers who lead the 22 students on an excursion around the Colony property. Mr. Andreas, Mr. Bullshoe, Mrs. Salois, and Ms. Wright have been making their visits to the Colony and the students look forward to their presence. Around the Colony the students have been busy with their respective duties in association with the Colony business, the new cavernous mechanic shop has been erected and is the pride of the Colony for their operation.

We would like to take this time to wish the Browning High School Running Indians and Lady Indians basketball teams good luck at the State A Tournament. Congratulations to Mr. Pat Armstrong for being honored as an Sports Official for Montana high school sports, a great honor indeed.

Mr. Willie Sharp-Teacher
Mrs. Carrie Spotted Bear-TA
