Principal's General Narrative:

Brackett Jr. High School has the teachers hired for the academic courses in 6th – 8th grades for the 2012 – 2013 school year. I am looking forward to having a good year with the highly qualified staff and the students. We will be incorporating the 6th grade into the junior high family and expect to have positive things taking place for the progression of students through the junior high grade levels.

We are getting a number of students from Laughlin AFB and Del Rio this year and have had a few families move into the community with their children as well.

The PITSCO Science Lab has been relocated into the Jr. High building and will be ready for the start of school. The maintenance and custodial personnel have done a tremendous amount of work in getting things ready for the new school year and in doing so have done a great job with things in our building.

I would like to say thank you to Mr. Stephenson and the Trustees for the things you have done to ensure our students and faculty have what is needed for a quality education.

Respectfully Submitted by George T. "Stoney" Burks
