

TO: ECISD BOARD OF TRUSTEES

April 14, 2011

I wish to rescind my request for early retirement that I announced last week as a courtesy to those I thought needed to know this information. With 11 years of service in ECISD I trusted the people I talked to about early retirement. When I received the packet from TRS on Tuesday, April 12, 2011, and read it over several times, I realized I was NOT eligible for their insurance or a partial lump sum. So I immediately told my boss the next day, April 13, 2011, that I would not retire early because I would have less than \$800 a month to live on! I assumed my contract was already made out, according to the news media, and there would be no problem since TRS did not process my form. WE are talking about a period of three business days from the time I announced through an e-mail, April 7, to Dr. Brown, that I would retire and when I announced I would NOT retire, on Wednesday, April 13, 2011, after reading all the technicalities involved.

With the closure of Virtual High School, I was told by Dr Brown that I would have a contract for next year and as a science teacher I should be able to get a position. So, if I hadn't been courteous in letting people know what I had in mind, this would never have had to come to the attention of the Board of Trustees. I am sorry to bother you with this issue, but could I please have my contract for next year. Thank you.

Respectfully,

Lana Rutter
