growth.

---

**Background Information:** As part of Navarro ISD's commitment to continuous improvement, the district will continue to closely monitor state accountability data to ensure progress toward increasing the percentage of students achieving the Meets and Masters performance levels on state assessments. Ongoing analysis of student performance data allows district and campus leaders to make informed, data-driven decisions regarding curriculum, instructional practices, and targeted interventions. The district recognizes that overall accountability performance is influenced by multiple indicators, including academic achievement, graduation rates, the performance of special student populations, and College, Career, and Military Readiness (CCMR) outcomes. The 2026 accountability data highlights significant areas of progress while also identifying opportunities for continued growth. As additional accountability information becomes available, district administration will continue to provide updates to the Board of Trustees and implement strategic actions that support the district's instructional priorities and ensure high levels of achievement and equitable outcomes for all students.
