Strategic Focus Areas: Translating Data into Action

Sustain Success

- Maintain high-performance pipelines with continued focus on Masters level achievement.
- Continue increasing enrollment in Algebra I acceleration in 8th grade to increase participation in Advanced Mathematics track.

Target Interventions

- Deploy immediate curriculum realignments and targeted support structures to address the 7th grade math performance gap.

Strengthen Foundations

- Leverage the robust 3rd and 4th-grade math outcomes to build stronger vertical alignment heading into junior high.

Leading the Standard

Setting the pathway to an A rating
