December 2025

Dear Umatilla School Board Members,

I am pleased to share highlights from STEAM over the past month.

Drama Club

Our Drama Club successfully presented three performances of *12 Angry Jurors*, all of which received rave reviews from families, staff, and community members. This was the club's first full drama production, and the students delivered an outstanding performance. The cast had been rehearsing diligently since September, and their commitment was evident on stage. We extend a special thank-you to **Mr. Hill** for his dedicated direction and guidance of our student actors.

FIRST LEGO League (FLL) Robotics

Our FLL students attended their first competition on **December 6th in Hood River**. The team has been working hard to program their robot and prepare their presentation on innovative solutions to an environmental challenge. Their progress and enthusiasm have been impressive, and this competition provided valuable experience and learning opportunities.

Program Reporting

All required **Summer Learning** and **Fall CCLC data and reports** have been completed and submitted to **ODE**. Thank you to everyone who contributed to gathering and organizing the necessary information.

Sincerely,

Stephanie Williams-Strege
