Approval of the 10 Yr Life Safety Reports

To conclude the process of the 10-year Life Safety Report, the BOE must approve the Reports for Hilda Walker School and Summit Hill Jr. High School. Once this has been completed, we will upload the documents into IWAS for review and approval by the ROE and ISBE. This work was completed by TRIA Architects and has been included in the resource section of your BOE book for review.

Recommended Motion:

“I move that the Board of Education approve the 10yr life safety reports for Hilda Walker School and Summit Hill Jr. High School as presented. ***(Roll Call Vote)***”
