

GOVERNING BOARD AGENDA ITEM
AMPHITHEATER UNIFIED SCHOOL DISTRICT NO. 10

DATE OF MEETING: **June 8, 2021**

TITLE: **Presentation of the Amphitheater Public Schools Technology Skills Scope and Sequence Articulated by Grade Level (K-12)**

BACKGROUND:

The reliance on technology and the skills associated with technology use are critical to the success of all students. In order to ensure that students have the skills and knowledge necessary to become successful digital citizens, the Amphitheater Technology Skills Scope and Sequence Articulated by Grade Level (K-12) was developed.

A committee of over forty-eight (48) district teachers and administrators developed a scope and sequence of technology concepts and skills in five strands:

- Technology Operations and Concepts
- Communication and Collaboration
- File/Document Management
- Information Literacy
- Digital Identity and Online Safety

Each strand is divided into concepts and broken down by skills that students should know and be able to do at each stage of their education. The comprehensive document presented here is designed to assist teachers when planning instruction for their grade level.

The document presented for review was developed and refined over the past two years. With Governing Board approval, the scope and sequence will be implemented during the 2021-2022 school year. Lauren McIntyre, Director of Instructional Technology, will provide a brief overview of the development process and highlight important components of the work of the committee.

RECOMMENDATION:

This item is presented for Governing Board study and approval.

INITIATED BY:

Dr. Roseanne Lopez, Associate Superintendent

Date: May 28, 2021

Todd A. Jaeger, J.D., Superintendent
