

MORTON WEST

Student Activities Report

Highlights of the month:

JULY 2026

Morton West Volunteer Work– Morton West students have been volunteering throughout the summer. They have helped with several community service opportunities, including acting as guides and greeters at several sessions of the Next Four Years, as well participating in new staff training as well. Our Mustang volunteers don't take their summers off.

We Are Morton: Several West students, along with those other from Morton East, participated in the We Are Morton portion of the new teacher orientation that took place on Monday August 3rd. These students shared their experiences as Mustangs, answered questions, and hung out with our new staff throughout the afternoon.
