## Superintendent's Report January 16, 2025

**Building Update:** We are in! Staff are adjusting to the new spaces and we are learning what we need to do and not do to make it successful. I spent a lot of break preparing for the transition. I created new evacuation maps, working with the maintenance crew, troubleshooting kinks, and preparing for staff and students to return.

**Civil Rights Reporting:** Over break, I completed our Civil Rights Data Collection (CRDC) which requires local educational agencies to submit data from the 2023-24 school year. Everything was submitted without errors.

**Science Curriculum Adoption:** The science curriculum committee will meet on January 28th to take a deep look at the curriculum samples we have received and review the presentations I have scheduled. We hope to make a decision for the February or March board meeting.

**Evaluation of Administrators:** The administrators will complete reflection documents for the evaluation process by February 1. I will then review that document and other evidence to complete the evaluation process by the end of February. We are using the new evaluation tool recommended by the Illinois Principals Association.

**Superintendent Evaluation:**
