Hi Alissa!

I am sorry I'm late on your Dental quotes. I have attached voluntary/employee paid plans from Health Partners and Delta Dental.

I will also send you quotes from Ameritas.

**I have attached a Health Partners plan with a \$1,000 yearly maximum.**

We would need 5 employees to enroll in this plan.

Rates start at:

Single \$41.39 and Family \$124.16 and decrease the more employees you have on the plan.

**I have also attached some Delta plans:**

Pathfinder 1 - \$1,000 maximum, Rates are \$31.82 Single and \$116.93 Family (and also have additional tiers)

Pathfinder 2- \$1,500 maximum, Rates are \$35.25 Single and \$127.60 Family (and also have additional tiers)

Pathfinder 4- \$1,500 maximum w/**Ortho**, Rates are \$37.94 Single and \$138.73 (and also have additional tiers)

We would only need 2 employees to enroll to start a plan.

The networks are pretty similar for all Carriers, but I will also send you provider lists for each Carrier so you can see what dentists are in the networks.

You would be able to go to any dentist in any of these plans, but keep in mind you get the best savings if you go to a dentist in the network.

I will send you additional information. If you have any questions please just let me know.
