

# MORTON WEST

## Student Activities Report

Highlights of the month: **FEBRUARY 2026**

**WSC Robotics Competition**– Morton West hosted the first ever WSC Underwater Robotics Competition. This event allowed conference schools to compete in an underwater robotics competition through two different courses on February 20th. A industry contractor first presented on job applications and career opportunities both in engineering and machine work, followed by three round of competition. NEIU and Triton College partnered with West for this event.

## Student Activities Report

### Highlights of the month: FEBRUARY 2026

**Spring Concert:** Morton West orchestra, band, and choir performed in an amazing show on February 26th, featuring a rendition of Aretha Franklin that left the audience stunned. The music program continues to improve year after year.

**Black History Month Assembly:** BSU and other student participants put on the Black History Month assembly February 10, 2026. This event celebrated culture and history and was apart of a month long celebration at Morton West.
