RE: THS J Building Canopy Addition

For your review and consideration, I am submitting three options for a canopy to be constructed at the new administrative area of J Building. The first option is a flat canopy very similar to other existing canopies on campus. This is the least expensive option proposed. This option is estimated at \$15,000.00.

The second option is a more modern look to match the 21st Century Learning Environment of the new interior of the building. This option is estimated to cost \$19,000.00

The third option is a curved brick wall similar to the entrance to the gym. This is the most expensive option. It is estimated to cost \$53, 000.00

I will be glad to answer any questions you might have.
