Instruction/Academic Data:

- Enrollment- on-site, 385

Title-September, 2024

Our Family Math Night was a big success. We had over 315 people in attendance!! The 4th grade cave projects seemed to help bring people in. We have discussed ways to make the line move faster so people can get it in to the fun. Jenny is double-checking the requirements to guide those processes for future events.

As of right now our Title Program is fully staffed. We just hired Jacob Perry to help us out in 3rd & 4th grade. He started a couple of weeks ago.

We have started DD reading groups in all grade levels and are working on getting DD math groups going in our younger grades.

We are currently administering assessments to help teachers have up-to-date information to share on their Progress Reports.

Parents have received a letter from the Title program if their c games & activities taking place in the gym. There will be some giveaways throughout the night, too.

*Progress and data on School Wide Plan was discussed, with recent progress monitoring results shared with site council team.

Boys and Girls Club:

ADA is now up to 48 kids per day. Evergreen makes up around 40 students. Available max capacity: 75. The My Futures program is a technology based program with lessons from Cyber bullying to computer codes; it is the most popular. Did ask about homework, and how teachers can communicate and support. Mrs. Mohr will share Jenna's email for teachers to share work with.

Teacher Request: Writing Resource. Bridge to Writing was ordered and will be delivered on 10-22.

Teachers: N/A

Next meeting: November 18th, 2024

Adjourned 3:45pm
