- Family Science Night - over 166 student represented
- Open House

Principal's General Narrative:

This is the month when our students get to show off their academic achievement as they take the TAKS test. We understand that the TAKS test will be much harder than in previous years as they state has included STAAR test items. I feel confident our teachers have enriched their curriculum and deliver lessons that are much more rigorous in preparation for the transition to STAAR. Our students should do well on the TAKS test.

Respectfully,

Alma Gutierrez
