

“District 90 acts with intentionality to foster a meaningful sense of belonging for our entire community. We hold ourselves collectively responsible for maintaining a safe, welcoming environment where every student, staff, and community member feels seen, valued, accepted and respected. Together we empower each other to create a more compassionate and inclusive future.”

“To ensure that every student feels empowered to achieve to his or her full potential, we commit to provide equitable opportunities for all learners, grow an inclusive school community, and demonstrate value for diversity.”
