

Montrose Elementary School Survey Results

In March of 2002 - 2009 fifth grade students, parents and staff were surveyed. The data presented is primarily based on students, parent and staff perception and opinions about their experiences at Montrose Elementary School for the 2001-2002, 2002-2003, 2003-2004, 2004-2005, 2005-2006, 2006-2007 and 2007-2008 school years. Two questions in the parent survey were worded similarly to a 2000-2001 NSSE so survey results could be compared.

Finding presented in this report are organized around six areas:

- General Satisfaction
- Curriculum and Instruction
- Learning Climates
- Technology
- Family Involvement
- School Leadership
