Administrative Recommendation

Admin and Admin Support members are compensated to salaries that are at least 104% of average in a calculation similar to current catch-up to average protocols. Those administrators greater than 104% will still receive a CPI-related salary increase. Moving the minimum target salary to 104% would involve 13 members of the group and cost an additional \$53,391.

Continued review of hourly employee groups in 27/28 to target their wage at 104% of peer average.
