

**Prince of Wales Health Network**  
**Memorandum of Agreement**  
**Addendum 1**

This agreement is an addendum to the Prince of Wales Health Network Memorandum of Agreement, which was amended and restated on November 4, 2016. This addendum adds Southeast Island School District (SISD) as a partner of the Prince of Wales Health Network. SISD will commit \$5,000 of in-kind support to the network annually in the form of meeting space and transportation.

The justification for this addendum includes:

- many network grants are youth focused.
- the network is seeking school district involvement.
- the network is pursuing opioid prevention and planning grants and believes the school districts have an integral role in the success of these endeavors.

This addendum is agreed to and approved by the following parties through their signatory designees:

---

Heidi Young, Director  
Prince of Wales Health Network
