

Action Item

Agency Voluntary Compliance Plan for Ionia ISD Implementation and Adoption

On Tuesday, October 28, 2025, the Michigan Department of Education Office of Career Technical Education conducted a civil rights compliance review at the Ionia County Career Center's facility, located in the Ionia High School, at 250 E. Tuttle Road in Ionia, MI. These regularly scheduled audits are conducted to ensure a school district's career technical education programs remain in compliance with federal Office of Civil Rights standards in its facilities and with its policies.

The review was completed and upon receipt of the findings, the recommendation is that the Ionia County Intermediate School Board of Education make a motion to approve the Agency Voluntary Compliance Plan for Ionia ISD as presented. The large majority of policies and facilities reviewed were found in compliance, and the minimal areas identified for improvement have either already been adjusted, corrected, or are in the process.

Recommendation

It is the recommendation of the ISD Administration that the Ionia ISD Board of Education formally approve and adopt the Agency Voluntary Compliance Plan for Ionia ISD as presented.
