Presented by:
Chris duBois
Superintendent

BACKGROUND INFORMATION

New Board and Superintendent Goals were developed in Spring 2013. The new composition Board has not had opportunity to review standing Vision, Mission or Goals together yet. This would make a good Team of Eight training to not only satisfy required training elements for Trustees, but also to evaluate the effectiveness or applicability of current Goals.

Likewise, Superintendent Evaluations should reflect agreed performance goals and the current Superintendent Evaluation instrument in use has also not yet been aligned to these adopted Goals.

Counsel Sara Leon agrees that some attention to drafting new, aligned Evaluation Instruments is warranted and can be a helpful exercise before any further required Evaluations are undertaken.

We are sharing a copy of the currently adopted Vision, Mission or Goals 2012 for your consideration.

Mrs. Leon has indicated that her firm could be helpful if you desire their assistance in drafting new, aligned instruments. Of course – the Board can lead this work themselves or in partnership with any other approved Training Provider.
