

C-I Secondary Board Report

Submitted by Jennifer Strom, Principal
March 2023

Site Team:

- During our meeting on March 22nd, we looked at some grade data and noticed some concerns for students in 7th and 8th grade.
- The Site Team has met to come up with some additional interventions for students who are failing classes and at risk of needing credit recovery.
- We are going to re-organize how we utilize our Guided Study and Math intervention time to offer more targeted support for students who are struggling with math homework.
- We are also going to utilize our Advisory period for more targeted interventions with students who are currently failing core classes.

Polar Plunge

- We had an amazing turnout for our Polar Plunge day! Thank you to all of the staff, students, and community members who participated and helped to raise funds for Special Olympics.
- CI had around 50 plungers and raised \$12,595
- A special shout out to Bryan Syrstad for all of his dedication to this program!

Math Leadership Academy

- Our secondary school math teachers went to another session of their math academy and heard from one of the leading math experts in the state, Sara Van Der Werf. There were many takeaways from that training!

Registration

- Students have registered for the 23-24 school year
- Mrs. Doyle is going through some final data inputting and then we will start working on building the master schedule. Students should have their schedules available by the end of April.
- This is a huge goal for us because that allows us to work out most of the issues before the end of the school year so that we can have a smoother start to the next school year.

Career Exploration

- 10th and 11th grade students had an opportunity to visit the CLC Career Fair on Friday, March 10th. There were many different careers represented and students able to see all of the different courses of study that CLC has to offer.

CI Career Pathways

- CI Career Pathways is coming together very well as we transition away from Bridges and create our own program. We have our new academies in place and are working on getting many different aspects of each academy worked out.
- This is a part of the Profile of a Ranger Graduate
- Here are the new pathways, feel free to click on each link:
 - [Business, Management, & Administration](#)
 - [Health and Human Services](#)
 - [Engineering, Manufacturing, and Technology](#)
 - [Arts, Communication, and Information Systems](#)
 - [Agriculture, Food, & Natural Resources](#)

SEL Curriculum

- We have been struggling to find a Social Emotional Curriculum for our advisory program that fits our needs and is engaging to our students.
- Megan Syrstad and Andrew Dirks have volunteered to put together a curriculum for our 7th and 8th graders for the 2023-2024 school year. For the 2023-2024 school year 7th and 8th graders will get the same curriculum. After that Megan and Andrew will create another curriculum for 8th grade based on feedback from the first set.
- Thank you to both of them for taking this on!!

Upcoming Events:

Wednesday, March 29th & 30th - Accuplacer Exam

Tuesday, April 4th - ACT Exam

Wednesday, April 5th ASVAB Exam
